ARMOUR ENGINEER  
INDEX

A cumulative index for  
volumes 1-20  
January 1909-May 1929

COVER DESIGNS

Anderson, K. C.

Chicago harbor of the future. v.19, Mar. 1928.

Armour Institute of Technology

Entrance of Main Building. v.14, May, 1923.

Main Building. Drawing by Rene P. Travelletti.  
v.17, Mar. 1926.

Blast furnaces

World's largest ... A drawing by John W. Urban, '27.  
v.18, May, 1927.

Bridges

Delaware River Bridge. A drawing. (Description  
appears in Eng. News Section) v.18, Nov. 1926.

Buckingham Memorial Fountain. (Description of the  
fountain appears in the Eng. News Section)  
v.19, Nov. 1927.

Chicago

New gateway to the Greater Chicago. Courtesy of  
Chicago Plan Commission. v.17, Nov. 1925.

Chicago harbor of the future. A drawing by K. C.  
Anderson, '28. (An article on the Chicago

Harbor Plan appears on page 86). v.19, Mar. 1928.

Chicago Plan Commission. New gateway of the  
Greater Chicago. v.17, Nov. 1925.

Chicago River Straightening. v.20, 1929.

Chicago Stadium, a model. (page27) v.16, Nov. 1924.

Delaware River Bridge. A drawing by John William

Urban, '27. (A description of this bridge ap-  
pears in the Eng. News Section). v.18, Nov. 1926.

Door of Franklin MacVeagh home. Presented to A. I. T.  
v.14, Mar. 1923.

Doorways

Door of Franklin MacVeagh home. Presented to  
A. I. T. v.14, Mar. 1923.

Doorways

Entrance of Main Building. A. I. T. May, 1923.

43599

## Fountains

Buckingham Memorial fountain. v.19, Nov. 1927.

## Generators

One of the world's largest turbo-generators. A drawing by John W. Urban, '27. (Discussion appears in Eng. News Section) v.18, Mar. 1927.

## Harbors

Chicago Harbor of the Future. A drawing by K. C. Anderson, '28. v.19, Mar. 1928.

Largest steam passenger locomotive in the world. A drawing by John W. Urban, '27. (A description of this and other great locomotives appears in the Eng. News Section) v.18, Jan. 1927.

## Locomotives

Largest steam locomotive in the world. A drawing by J. W. Urban, '27. (Disc. appears in the Eng. News Section) v.18, Jan. 1927.

## Mac Veagh, Franklin

Door of Franklin MacVeagh home. Presented to A. I. T. v.14, Mar. 1923.

A Modern Newspaper Press. v.20, May, 1929.

New Gateway of the Greater Chicago. Courtesy of the Chicago Plan Commission. v.17, Nov. 1925.

Newspaper press - A modern. v.20, May, 1929.

One of the world's largest turbo-generators. A drawing by J. W. Urban, '27. (Disc. of recent high capacity turbo-generator installations appear in the Eng. News Section) v.18, Mar. 1927.

## Pumping stations

World's largest .... The William Hale Thompson station. v.20, Nov. 1928.

## Senescall, Lionel C.

Cover design. v.16, Mar. 1925.

## Sewage treatment plant

A photograph of the pump and blower room of the North Side Sewage Treatment Plant, and the world's largest activated sludge sewage treatment plant. (Description of the plant appears on page 47. Jan. 1928) v. 19, Jan. 1928.

South Park Boulevard viaduct under construction. (see page 145) v.16, May, 1925.

#### Stadiums

Chicago Stadium, a model. v.16, Nov. 1924.

Straightening the Chicago River. v.20, Mar. 1929.

#### Testing Machines

World's largest testing compression testing machine. v.20, 1929.

#### Thompson, William Hale

World's largest pumping station. v.20, Nov. 1928.

#### Towers

Tribune Tower in construction. v.16, Jan. 1925.

#### Travelletti, Rene P.

A. I. T. Main Building. v.19, 1928.

Cover design. v.17, May, 1926.

Tribune Tower in construction. v.16, Jan. 1925.

#### Urban, John William, '27.

Delaware River Bridge - a drawing. (Description appears in the Eng. News Section) v.18, Nov. 1926.

Largest steam locomotive in the world. A drawing.. (Description appears in the Eng. News Section) v.18, Jan. 1927.

One of the world's largest turbo-generators. (Disc. appears in Eng. News Section) v.18, Mar. 1927.

World's largest blast furnace. (Description appears in the Eng. News Section) v.18, May, 1927.

#### Viaducts

South Park Boulevard viaduct under construction. (see page 145) v.16, May, 1925.

#### Viscariello, Vincent

Cover Design. v.17, Jan. 1926.

World's largest blast furnace. Drawing by J. W. Urban. (Description appears in the Eng. News Section) v.18, May, 1927.

World's largest pumping station. (William Hale Thompson Station) v.20, Nov. 1928.

World's largest testing compression testing machine. (Capacity 10,000,000 lbs.) v.20, Jan. 1929.

INDEX TO ILLUSTRATIONS  
ARMOUR ENGINEER  
V 1 - 20

Allen, Albert P. 15:87, Mr. 1924	Champion, F. J. 16:129, M. 1925
Alschuler, Alfred S. 14:39, Ja. 1923 17:107, Mr. 1926	Cooley, Mortimer Edwin 15:9, No. 1923
Arachovitis, George D. 16:138, M. 1925	De Forest, Lee 15:127, M. 1924
Armour, J. Ogden 19:5, No. 1927.	Deiwert, Phipip S. 19:63, Ja. 1928
Armour, Philip D. 17:85, Mr. 1926.	Doubt, Thomas E. 16:8, No. 1924
Armour, Mrs. Philip D. 19:6, No. 1926	Downes, W. E. 17:151, M. 1926
Atkins, Paul M. 15:131, M. 1924	Eustice, A. L. 18:99, Mr. 1927
Augustine, Austin 18:106, Mr. 1927	Faulkner, Charles D. 14:41. Ja. 1923
Avery, S. L. 20:5, No. 1928.	Freeman, E. H. 14:73, Mr. 1923 15:21, No. 1923 18:85, Mr. 1927.
Benedict, A. B. 17:92, Mr. 1926	Goodmanson, J. H. 15:141, M. 1924
Bieg, Harry Kurt 16:97, Mr. 1925	Griffenhagen, Edwin O. 20:21, No. 1928
Birdsey, Charles Robert 14:105, M. 1923	Gunsaulus, Frank Wakely 13:49, No. 1921
Bolte, Charles L. 16:85, Mr. 1925	Harding, Warren Gamaliel 15:6, No. 1923
Bready, Ira J. 16:47, Ja. 1925	Harper, Robert B. 18:139, M. 1927
Brockman, E. William 19:23, No. 1927.	Hart, W. E. 15:95, Mr. 1924
Brown, Floyd 15:105, Mr. 1924	Heim, Carl 16:92, Mr. 1925
Cerny, Otto F. 16:95, Mr. 1925	

Henderson, Roy Manwaring  
 14:69, Mr. 1923  
 16:17, No. 1924  
 17:89, Mr. 1926.

Hills, Charles W.  
 15:99, Mr. 1924

Hofer, Victor  
 18:145, M. 1927

Holtman, Dudley F.  
 17:13, No. 1925

Houstan, Herbert S.  
 15:52, Ja. 1924

Jennings, George  
 19:135, M. 1928

Johnson, Frank R.  
 15:50, Ja. 1924

Judson, Ross W.  
 17:145, M. 1926.

Kara, James  
 20:19, No. 1928

Klein, E. A.  
 15:141, M. 1924

Lee, Morris W.  
 14:7, No. 1922

Libby, E. S.  
 14:117, M. 1923

Mac Dowell, C. H.  
 15:134, M. 1924

McLaren, S. J. Jr.  
 17; 114, Mr. 1926

Manz, John W.  
 20:103, Mr. 1929

Mees, C. E. K.  
 20:48, Ja. 1929

Mohlman, F. W.  
 16:10, No. 1924

Monin, Louis Celestin  
 16:125, M. 1927

Moskovics, F. E.  
 18:59, Ja. 1927

Nachman, H. L.  
 14:117, M. 1923

Nelson, Edward L.  
 16:93, Mr. 1925

Nichols, H. W.  
 14:116, M. 1923  
 15:19, No. 1924

Ogden, William Butler  
 18:7, No. 1926

Ostergren, Robert C.  
 14:40, Ja. 1923

Palmer, Claude Irwin  
 18:142, M. 1927

Patterson, D. A.  
 18:45, Ja. 1927

Payne, Fred D.  
 18:21, No. 1926

Pease, Francis G.  
 17:57, Ja. 1926

Peckham, J. O.  
 15:141, M. 1924

Peebles, J. C.  
 16:5, No. 1926

Penn, John Cornelius  
 18:142, M. 1927

Phalen, H. R.  
 15:11, No. 1923

Pierce, E. O.  
 16:13, No. 1924

Raymond, Howard Monroe  
 17:86, Mr. 1926

Reynolds, Arthur  
 15:47, Ja. 1924

Roesch, Daniel  
 15:91, Mr. 1924

Rosseti, Germini  
 19:100, Mr. 1928

Scherger, George L.  
 14:71, Mr. 1923

See, Pierre V. C.  
17:9, No. 1925

Shubart, Benedict  
17:15, No. 1925

Spitzglass, J. H.  
14:73, Mr. 1923

Stineman, Norman M.  
17:52, Ja. 1926

Stockholm, Carl  
19:55, Jan. 1928

Stryker, Clinton, E.  
16:54, Ja. 1925

Sturtevant, Roy W.  
18:9, No. 1926

Urban, John William  
18:9, No. 1926

Watson, V. S.  
14:42, Jan. 1923

Weinwurm, Walter H.  
16:57, Jan. 1925

Wells, M. B.  
17:45, Ja. 1926  
19:15, No. 1927

Whitney, Charles A.  
16:89, Mr. 1925

Wilson, William Robert  
19:16, No. 1927

Wolfley, C. E.  
16:15, No. 1924

Wright, V. Campbell  
14:43, Ja. 1923

## ARMOUR ENGINEER INDEX

A cumulative index for  
Volumes 1 - 20  
January 1909 - May 1929

Abell, H. C.

An address; In retrospect. On the occasion of merging with Northwestern University. 17:93-94. Mar. 1926

Difficult problems which public utility commissions are endeavoring to solve. 1:12-24. Jan. 1909.

Abutments, see Bridges

Acceptance of tablet in memory of Dr. Frank W. Gunsaulus, by Dr. H. M. Raymond. 13:43-46. Nov. 1921.

Acro-Bosch injection valve. 20:135. May, 1929.

Advertising

Advertising for the practicing engineer. M. W. Lee. 14:7-8. Nov. 1922.

Engineer as advertising man. 17:11. Nov. 1925.

Aerodynamical laboratory. S. V. James. 4:101-112. Jan. 1912.

Aeronautics

An aero industry made over night. W. L. Brock. 7:3-8. Nov. 1914.

Some power requirements of aircraft. Daniel Roesch. 13:223-234. May, 1922.

See also, Airplanes, Aviation.

Aeroplane stability, Present status of ... S. V. James. 6:27-36. Nov. 1913.

After graduation - what? W. J. Zenner. 19:53-54;56. Jan. 1928.

Air brake development coincident with transportation requirements. W. H. Beattys, Jr. 13:86-107. Jan. 1922.

Air brakes

Air brake development coincident with transportation requirements. W. H. Beattys, Jr. 13:86-107. Jan. 1922.

Air compressors

Slow speed motors and their application to reciprocating air compressors. R. O. Joselyn. 12:226-239. May, 1921.

# Air furnace manufacture.

High grade malleable iron. G. B. Stanial. 18:50-52;58.  
Jan. 1927.

# Airplane engines.

Investigations of the effect of air conditions upon the  
power of aviation engines. H. S. White. 12:135-144.  
Mar. 1921.

Le Rhone aircraft engine testing. E. C. Cook. 11:123-  
130. Jan. 1920.

# Airplanes.

External forces acting on an aeroplane when in motion.  
W. S. Oehne. 4:262-270. May, 1912.

Model aeroplanes. W. E. Schweitzer. 16:16-30. Nov. 1924.

Power necessary to drive an aeroplane. S. V. James.  
3:226-231. May, 1911.

Power requirements of aircraft. Daniel Roesch. 13:223-  
234. May, 1922.

Present status of the problem of aeroplane stability.  
S. V. James. 6:27-36. Nov. 1913.

Stresses in aeroplanes during quick turns. M. B. Wells.  
3:114-117. Jan. 1911.

Test of slender wooden struts for aeroplanes. M. A.  
Smith. 2:242-243. May, 1910.

An aero industry made over night. W. L. Brock. 7:3-8.  
Nov. 1914.

# Alaska.

Juneau region. Water powers of southeastern Alaska.

Leonard Lundgren. 8:361-366. May, 1916.

Ketchikan region. Water powers of southeastern Alaska.

Leonard Lundgren. 8:245-246. Mar. 1916.

Sitka region. Water powers of southeastern Alaska.

Leonard Lundgren. 8:358-361. Mar. 1916.

Wrangell region. Water powers of southeastern Alaska.

Leonard Lundgren. 8:255-257. May, 1916.

# Allen, Albert P.

Telephone engineering. 15:88-90; 114. Mar. 1924.

# Alling, C. R.

Life of an automatic sprinkler. 4:131-137. Jan. 1912.

# Alpha particles.

Collision of alpha particles with light atoms. Sir E.  
Rutherford. 11:34-44. Nov. 1919.

# Alschuler, Alfred S.

Biographical sketch. 17:107-108. Mar. 1926.

# Alternating current quantities symbolic representation.

H. W. Nichols. 4:45-51. Jan. 1912.

Alternating currents, see Electric currents.

Alunite.

A promising source of potash. C. H. MacDonald.  
15:134; 153-154. May, 1924.

Amdursky, S. S.

Temperatures and the manufacture of the thermometer.  
17:140-144. May, 1926.

American Expeditionary force. Letters of L. D. Kiley.  
10:370-376. May, 1918.

American Ideals. Dr. George L. Scherger (editorial).  
10:338-345. May, 1918.

Ammonia compressors clearance and its relation to volumetric efficiency. C. E. Beck. 6:114-125. Jan. 1914.

Amsbary, Wallace B.

Ira Pettibone - optimist. (poem). 14:24. Nov. 1922.

Anderson, A. H.

Forms of nozzles for impulse water wheels. 2:200-203.  
May, 1910.

Pitot tubes for air. 1:245-250. May, 1909.

Spitzglass computer for the flow of liquids in pipes.  
7:33-40. Nov. 1914.

Anthracite producer gas for fuel purposes. M. S. Flinn.  
3:213-225. May, 1911.

Anti-knock, see Gasoline, Anti-knock and Anti-knock mixtures.

Application of protective relays to central station practice.  
C. E. Stryker. 12:17-28. Nov. 1920.

Arachovitis, George D.

New Holy Trinity church; an account of its structural design. 16:137-138; 156. May, 1925.

Architects.

Experiences of an architect. C. E. Wolfley. 16:15;32.  
Nov. 1924.

Architecture.

Competitive design for a building for the Chicago Tribune.  
14:37. Jan. 1923.

Concrete building. E. I. Silver. 4:85-100. Jan. 1912.

Evolution of the skyscraper. A. N. Rebori. 4:52-64.  
Jan. 1912.

# Architecture (cont'd).

History of architecture in Illinois. T. E. Tallmadge. 15:97-98;114. Mar. 1924.

Modern Berlin department store. J. H. Bishof. 8:52-57. Nov. 1915.

New Holy Trinity church; an account of its structural design. 16:137-138;156. Jan. 1923.

Notes on the Department of Architecture, Armour Institute of Technology. 14:45. May. 1925.

Recent successes of the Department of Architecture, Armour Institute of Technology. R. J. Nedved. 16:95-96; 107. Mar. 1925.

Recent work by graduates of the Department of Architecture, Armour Institute of Technology. 14:39-45. Jan. 1923.

## Architecture-Ancient.

Some achievements of ancient architecture. T. E. Tallmadge. 2:158-163. May, 1910.

## Armour, J. Ogden.

In memoriam. 19:4. Nov. 1927.

On the death of J. Ogden Armour, August 16, 1927. 19:5-7; 28. Nov. 1927.

## Armour, Philip D.

Statement of the proposition. On merging with Northwestern University. 17:85-86. Mar. 1926.

## Armour, Mrs. Philip D.

Death, July 25, 1927. 19:5-7; 28. Nov. 1927.

## Armour Engineer.

On becoming a monthly. 20:16. Nov. 1928. 20:56. Jan. 1929.

Became a quarterly November 1913, volume 6

## Armour Institute of Technology.

An address: In retrospect. H. C. Abell (on the occasion of merging with Northwestern University). 17:93-94. Mar. 1926.

An address by Dr. L. C. Monin (on the occasion of merging with Northwestern University). 17:91-92. Mar. 1926.

Department of Mechanics founded. 7:61. Nov. 1914.

Engineering field practice. A. E. Phillips. 7:263-268. May, 1915.

Fire Protection Engineering Department. W. H. Merrill. 15:23. Nov. 1923.

Greater Armour announcement. 11:234-236. Mar. 1920.

The Institute: Its beginning, past, present, and future. Dr. H. M. Raymond. 17:86-88. Mar. 1926.

Internal combustion engine engineering laboratory.

Daniel Roesch. 10:102-106. Jan. 1918.

Armour Institute of Technology. (cont'd).

Maintenance fund drive. Results. 18:59. Jan. 1927.

My reminiscences of Armour Institute. Lee DeForest.

15:127-128; 152. May, 1924.

On the occasion of merging with Northwestern University.

Speech of P. D. Armour to mid-winter alumni banquet.

17:85-86. Mar. 1926.

Preservation of an ideal. A. B. Benedict. (on the occasion of the merging with Northwestern University.

17:92-93. March 1926.

Sale of proposed site of Greater Armour. 14:15. Nov. 1922.

Some provisions of the contract. R. M. Henderson (on the merging with Northwestern University). 17:

89-90. Mar. 1926.

Armour Institute of Technology Civil Engineering Dept.

Summer Camp. See Field Practice in Surveying.

Armour Institute of Technology - Department of Architecture. 2:222-230. May, 1910.

Recent successes of the Department of Architecture.

R. J. Nedved. 16:95-96; 107. Mar. 1925.

Recent work by graduates. 14:34-45. Jan. 1923.

Armour Institute of Technology loses two loyal friends.

19:5-7; 28. Nov. 1927.

Armour alumnus. 14:19. Nov. 1922.

Armour and the Merchant Marine. P. C. Huntly. 10:17-21.

Nov. 1917.

Armour Radio Association. 20:102. Mar. 1929.

Armour Tech radio station "IYL". Fred Marco. 14:114-115; 126. May, 1923.

Armour Tech News. 20:57. Jan. 1929.

Armstrong, W. O.

Factors in ventilation. 10:238-244. Mar. 1918.

Armstrong, H. J.

Future of American highways. 7:121-127. June, 1915.

Army and civilian methods of handling materials in

Panama. 8:298-304. May, 1916.

Arnold, E. H.

General description of the apparatus of the power plant employed in modern telephone practice. 10:314-332.

May, 1918.

# Arsenic.

Efficiency of sulphuric acid pickling solution for iron and steel containing arsenic. W. H. Wiard. 9:145-150. Jan. 1917.

Artesian water in the orient. T. S. Ford. 3:56-61. Jan. 1911.

Art of color reproduction through process plates. 18:45-47. Jan. 1927.

# Ash handling.

Pneumatic ash handling systems. R. H. Harris. 3:106-113. Jan. 1911.

Asphaltic highway construction. D. T. Pierce. 8:130-139. Jan. 1916.

# Athletics.

Trend of modern intercollegiate athletics. 12:45-49. Nov. 1920.

# Atkins, Paul M.

Business training for engineers. 15:131-133;153. May. 1924.

# Atomic structures.

Radioactivity and atomic structures. 18:91-93;97. Mar. 1927.

Audibility spark-advance and anti-knock tests. Daniel Roesch. 19:132-133; 156. May 1928.

# Auditoriums.

Heating and ventilation of theater auditoriums. 9:45-56. Nov. 1916.

Automatic block signaling, see Signals and signaling.

# Automatic control.

Continous two speed system of automatic control.

H. E. Larson. 19:125;144;146. May 1928.

Automatic control of fire. Fitzhugh Taylor. 4:226-245. May, 1912.

# Automatic sprinklers.

Life of ... C. R. Alling. 4:131-137. Jan. 1912.

Automobile brakes, see Brakes automobile.

Automobile engines.

Dilution of the crank case oil of automobile engines.

C. M. Larson. 15:53-54;63. Jan. 1924.

Mean effective pressure. Daniel Roesch. 6:256-265.

May, 1914.

Automobile radiators. K. M. Boblett. 6:216-224. Mar. 1914.

Automobile tire shock absorption machine. 12:31. Nov. 1920.

Automobiles.

Past, present and future trends in motor car design.

F. E. Moskovics. 13:22-26. Nov. 1921.

Automobiles, Electric, see Electric automobiles.

Automobiles, testing,

Automobile testing. J. C. Zeder. 20:50-51;70;72;74. Jan. 1929.

Avery, S. L.

Commencement address to the class of 1928. 20:5;30. Nov. 1928.

Aviation engines.

Le Rhone aircraft engine testing. E. C. Cook.

11:123-130. Jan. 1920.

Bacillus - Analysis.

Hunters in the dark. A. Schaffer, Jr. 19:34;36.

Nov. 1927.

Bacteria

Hunters in the dark. A. Schaffer, Jr. 19:34;36.

Nov. 1927.

Badger, H. Ralph.

High-temperature electric resistance furnace. 3:62-69.

Jan. 1911.

Work of valuation of an electric railway property.

2:71-77. Jan. 1910.

Badger, LeRoy H.

Economy oil burning furnaces. 12:78-90. Jan. 1921.

Ball bearings.

Ball bearings. H. N. Parsons. 17:47-49;70. Jan. 1926.  
Pt. 1. 17:98-100. Mar. 1926. Pt. 2.

Ballistics.

Ballistic engineering. H. E. Stier. 20:94-96. Mar.  
1929.

Banning, Thomas A., Jr.

Carrying capacity of rapid transit systems. 1:208-  
229. May, 1909.

Some comments on the patent system. 7:23-32. Nov. 1914.

Banta, J. S.

Wire rod rolling. 4:76-84. Jan. 1912.

Barrett, D. O.

Factors of design for two cycle oil engines. 8:10-29.  
Nov. 1915.

Barrows, Frank E.

Structure and molecular weight caoutchouc. 5:167-178.  
May 1913.

Synthetic caoutchouc. A review compiled from the lit-  
erature. 3:197-214. May 1911.

Barrows, William E.

Electrical illuminating engineering (book review).  
1:109. Jan. 1909.

Flux of light method of performing illumination cal-  
culation. 4:3-29. Jan. 1912.

Batteries, see Electric batteries; storage batteries.

Baughman, I. M.

Modern farm problems and the engineer. 4:193-199.  
May, 1912.

Bearing currents in machinery. E. H. Freeman. 6:100-  
106. Jan. 1914.

Beattys, W. H. Jr.

Air brake development coincident with transportation  
requirements. 13:86-107. Jan. 1922.

Beck, C. E.

Clearance and its relation to volumetric efficiency  
of ammonia compressors. 6:114-125. Jan. 1914.

Beck, C. E.

Diesel engine in practice. 11:280-306. May, 1920.

Gas calorimetry. 3:48-55. Jan. 1911.

Increasing boiler furnace efficiency. 2:96-98.

Jan. 1910.

Beerbaum, A. J.

The new plant of the Busch-Sulzer Bros. Diesel Engine Co. 5:131-146. May, 1913.

The "Bef". A new three-wheel electromobile. Max

Deitenbeck. 5:179-186. May 1913.

Belting.

Belt testing machine. 12:34. Nov. 1920.

Benedict, A. B.

Preservation of an ideal. (On the occasion of merging with Northwestern University). 17:92-93. Mar. 1926.

Benzene.

Satisfactory method for the determination of benzene and toluene in crude toluol. 10:38-48. Nov. 1917.

Bernhard, F. H.

Electrical industry and the electrical engineer.

13:175-183. Mar. 1922.

Besch, O. R.

Underwriters' Laboratories. 19:90-92;114. Mar. 1928.

Beveridge, Mrs. Julia,

In memoriam (editorial) 11:46-49. Nov. 1919.

Bids. M. B. Wells. 17:45-46. Jan. 1926.

Bigelow, Carle M.

Application of scientific management to the problems of the factory. 9:102-119. Jan. 1919. 248-267. Mar. 1917.

Birdsey, Charles Robert,

Engineering majors. 14:105;126. May, 1923.

Bischof, Jacob H.

Modern Berlin department store. 8:52-57. Nov. 1915.

Where kings have lived. 5:97-103. Jan. 1913.

Blanchard, B. E.

Service of Underwriters' Laboratories. 13:27-36.

Nov. 1921.

Blanchard, Murray,

Status of the Illinois waterway. 18:133-138. May, 1927.

- Blast furnace gas. E. K. Hammond. 4:32-44. Jan. 1912.
- Blast furnace slag,  
 Manufacture of Portland cement from ... R. S. Huey.  
 3:188-196. May, 1911.
- Blast furnaces,  
 Weirton stack embodies latest blast furnace design.  
 18:147;150. May 1927.
- Blau gas. 6:94. Nov. 1914.
- Boblett, K. M.  
 Automobile radiator. 6:216-224. Mar. 1914.
- Boehmer, Alexander H.  
 Elevators. 8:319-325. May 1916.
- Boiler efficiency  
 Increasing boiler efficiency. C. E. Beck. 2:96-98.  
 Jan. 1910.
- Boiler feed water.  
 Cycloidal weir meter. William Bready, Jr. 8:367-370.  
 May, 1916.
- Boiler plants.  
 Coal costs. G. A. Grassby. 8:166-168. Jan. 1916.
- Boiler waters.  
 Recent developments in boiler feed water treatment.  
 16:47-50;73. Jan. 1925.
- Bolshevism and the American spirit. Dr. G. L. Scherger.  
 (editorial) 11:49-52. Nov. 1919.
- Boltin, Charles L.  
 Our national defense policy. 16:85-87;110. Mar. 1925.
- Bond, Maj. P. S.  
 General duties and work of the military engineer.  
 9:336-344. May, 1917.
- Book paper industry. D. E. Cable. 18:94-96. Mar. 1927.
- Book Reviews.  
 Gebhardt, G. F. Steam power plant engineering.  
 1:108. Jan. 1909.

## Book reviews (cont'd)

Nachman, H. L. Elements of machine design. 10:351.

May, 1918.

Wells, M. B. 6:147-148. Jan. 1914.

## Borroughs, W. L.

Storage batteries. Its various uses and abuses.

11:222-231. Mar. 1920.

## Borst, G. W.

Electric fuses for ordinary operating voltages.

7:51-55. Nov. 1914.

## Boutell, H. G.

Bureau of Standards. 20:45-47;68. Jan. 1929.

## Bowman, J. H.

Influence of minnows in the circulating water of a condenser. 19:89;106. Mar. 1928.

## Boy surveyors in Wisconsin. A. B. Stevens. 19:15;30

Nov. 1927.

## Boy trail blazers. L. C. Kantner. 20:9. Nov. 1928.

## Boyles' laws. 1:198-199. May 1909.

## Bradbury, Gilbert V.

What does a college man know? 13:119-121. Jan. 1922.

## Brakes

Eddy current brakes. H. W. Nichols. 6:266-271.

May, 1914.

## Brakes, Air see Air Brakes.

## Brakes, Automobile,

Automobile brakes. 13:1-21. Nov. 1921.

Automobile brakes. Daniel Roesch. 15:91-94;112.

Mar. 1924. 15:135-139;151. May, 1924.

## Braley, Berton,

The thinker (poem). 12:52. Nov. 1922.

## Braun, William T.

Heating and ventilating of theater auditoriums.

9:45-56. Nov. 1916.

## Bready, I. J.

Recent developments in boiler feed water treatment.

16:47-50;73. Jan. 1925.

Bready, William Jr.

Cycloidal weir meter. 8:367-370. May. 1916.

Water softening. 9:24-29. Nov. 1916. 9:168-178.

Jan. 1917.

Demolition. 10:205-213. Mar. 1918.

Bricks,

Manufacture of concrete bricks. 18:53;72. Jan. 1927.

Bridges,

Deleware River Bridge. 18:22-23;28. Nov. 1926.

Fabrication. R. W. Johnson. 5:59-66. Jan. 1913.

New bridges from old. S. T. Corey. 17:66;76. Jan. 1926.

Railroad bridge abutments and piers. 6:107-113.

Jan. 1914.

Roosevelt road viaduct. Morris Grodsky. 12:173-186.

Mar. 1921.

Substructure of the Wabash Rouge River bridge at

Detroit, Mich. S. M. Smith. 13:250-255. May, 1922.

South Kedzie Ave., Chicago, Ill. J. C. Penn.

2:99-107. Jan. 1910.

Wabash Rouge River bridge at Detroit, Mich. S. M.

Smith. 13:250-255. May, 1922.

Bridges, Railroad,

New bridges from old. S. T. Corey. 17:66;76. Jan. 1926.

Railroad bridge abutments and piers. D. F. Holtman.

6:107-113. Jan. 1914.

Bridges, Reinforced concrete arch

South Kedzie Ave., Chicago, Ill. J. C. Penn. 2:99-

107. Jan. 1910.

Bridges, River

Deleware River bridge. 18:22-23;28. Nov. 1926.

Bridges, Steel

Fabrication. R. W. Johnson. 5:59-66. Jan. 1913.

Briquetting (fuel)

Briquetted coal. C. T. Malcolmson. 3:3-37. Jan. 1911.

Brock, Walter L.

An aero industry made over night. 7:3-8. Nov. 1914.

Brubaker, William C.

Modern passenger car truck. 6:203-215. Mar. 1914.

Brueckner roasting cylinder. 4:170. May, 1912.

Buckingham memorial fountain. H. E. Larson. 19:25;28.

Nov. 1927.

- Buffington, E. J.  
 "Pittsburgh plus". 14:46;55. Jan. 1923.
- Building and operating a cider vinegar plant. J. J. Schommer. 12:1-16. Nov. 1920.
- Building codes. N. M. Stineman. 17:32;68;70. Jan. 1926.
- Building construction,  
 Building to reduce fire losses. C. K. Stiff. 18:130-132;152. May 1927.
- Foundation construction of proposed commercial building.  
 H. W. Clausen. 3:118-126. Jan. 1911.
- Burda, John, L.  
 Pure oil. 18:48-49;58;72. Jan. 1927.
- Bureau of Standards. H. G. Boutell. 20:45-47;68. Jan. 1929.
- Busch-Sulzer Bros. Diesel Engine Co. A. J. Beerbaum. 5:131-146. May, 1913.
- Busch-Sulzer Diesel Engine operating table. 11:298. May, 1920.
- Business and the engineer. L. C. Thoelecke. 18:134-154. May, 1929.
- Business in perspective. Arthur Reynolds 15:47;71. Jan. 1924.
- Business letters,  
 16,000,000,000 business letters last year. T. H. B. Whipple. 19:81-82. Mar. 1928.
- Business training for engineers. P. M. Atkins. 15:131-133;153. May, 1924.
- The Busy man (poem). 20:101. Mar. 1929.
- Cable, D. E.  
 Research unit in the book paper industry. 18:94-96. Mar. 1927.
- Cables, see Telephone cables.
- Calorimeters and calorimetry,  
 Calorimeters:  
   Junkers 3:49. Jan. 1911.  
   Sargent 3:50. Jan. 1911.  
   Boys 3:53. Jan. 1911.  
   Suminance-Abady 3:54.

## Calorimeters and calorimetry (cont'd)

Gas calorimetry. C. E. Beck. 3:48-55. Jan. 1911.

## Calumet Station of the Commonwealth Edison Company.

W. F. Sims. 13:151-154. Mar. 1922.

## Camp Armour, see Field Practice in Surveying. A. I. T.

## Camp Jackson, S. C.

Description of some engineering features involved in the construction of Camp Jackson, S. C. Stanley Dean. 9:107-122. Jan. 1917

## Campbell, F. S.

Competitive design for a building for the Chicago Tribune. 14:37. Jan. 1923.

## Camps - World War, 1917-18.

A description of some engineering features involved in the construction of Camp Jackson, S. C. Stanley Dean. 10:117-122. Jan. 1918.

## Caoutchouc

Structure and molecular weight of caoutchouc. F. E. Barrows. 5:167-178. May, 1913.

Synthetic caoutchouc. A review compiled from the literature. 3:197-214. May, 1911.

## Car heating,

Railway passenger car heating. E. W. Rietz. 9:232-247. Mar. 1917.

## Car ventilation. D. I. Cook. 2:217-221. May 1910.

## Carbon dioxide,

Progress of the industry. J. G. Hatman. 6:277-285. May, 1914.

## Carpenter, A. H.

Recovery of vanadium from roscoelite ores. 13:184-195. Mar. 1922.

## Carr, B. S.

Design, construction and calibration of apparatus proposed for advanced improvements in chemical conductivity tests. 9:120-136. Jan. 1917.

Manufacture of manganese steel castings. 10:155-186. Mar. 1918.

## Carrying capacity of rapid transit systems. T. A.

Banning Jr. 1:208-229. May, 1909.

Cartwright, C. M.

Fire Protection engineering. 14:47;56. Jan. 1923.

Cast iron,

What and why is malleable iron. H. A. Schwartz.  
11:95-110. Jan. 1920.

Catalysis,

Catalysis or contact action. B. B. Freud. 3:38-47.  
Jan. 1911.

Cathedrals,

Impressions of four great cathedrals. C. D. Faulkner.  
5:90. Jan. 1913.

Cellulose,

Cornstalks -- A scientific romance. I. G. Katz.  
20:130-131;158;160;162. May, 1929.

Notes on the wood yard and wood room of the cellulose  
mill. C. C. Heritage. 10:1-16. Nov. 1917.

Cellulose sulfate. Mfg. by the Ritter Kellner process.  
C. C. Heritage. 8:44-51. Nov. 1915. 8:153-160.  
Jan. 1916. 8:348-357. May, 1916.

Cement industry and trade,

Manufacture of Portland cement from blast furnace slag.  
R. S. Huey. 3:188-196. May, 1911.  
Portland cement concrete. W. E. Hart. 15:95-96;  
110-111. Mar. 1924.

Central station power plants.

Storage batteries for central station power plants.  
H. B. Marshall. 5:104-108. Jan. 1913.

Central station system substations. E. W. Grover.  
10:81-106. Jan. 1918.

Application of protective relays to central station  
practice. C. E. Stryker. 12:17-28. Nov. 1920.

Centrifugal pump efficiency. L. G. L. Thomas. 18:88-  
90;116. Mar. 1927.

Champion, F. J.

Work of the forest products laboratory. 16:129-130;  
152. May 1925.

Character,

Editorial by L. E. Powell. 8:186-187. Jan. 1916.

Characteristic. H. W. Nichols. 8:232-237. Mar. 1916.

Charles' laws. 1:198-199. May, 1909.

## Charts,

Personal system and the consulting engineer. 1:31-39. Jan. 1909.

Chemical control in pharmaceutical manufacturing. H. W. Jones. 8:58-62. Nov. 1915.

## Chemical engineering,

New ideas in chemical engineering. Editorial. 1:5-6. Jan. 1909.

## Chemistry,

Laboratory instruction. Harry McCormack. 2:78-85. Jan. 1910.

Relation of chemistry to the development of the petroleum industry. J. W. Urban. 18:8-9;32;34. Nov. 1926.

Factors involved in the development of a new organic chemical process. C. C. Heritage. 11:255-268. May, 1920.

## Chicago.

Bureau of fire prevention. J. B. Finnegan. 8:63-68. Nov. 1915.

Chicago lake front development. Linn White. 18:86-87;116. Mar. 1927.

Chicago lake front improvement. 17:65-66. Jan. 1926.

Chicago traffic signal system. C. S. Shaffer. 19:122-124;138. May 1928.

Chicago transportation problem. John Erickson (editorial). 7:147-149. Jan. 1915.

Harbor plan of Chicago. H. E. Larson. 19:86-88;108. Mar. 1928.

Plan of Chicago. E. S. Taylor. 17:7-8. Nov. 1925.

Some new buildings of Chicago railways. E. F. Hiller. 1:230-244. May, 1909.

South side retrospect. J. C. Feebles. 18:5-7;30. Nov. 1926.

Specifications of the Bureau of Streets. W. G. Lenninger. 2:176-196. May, 1910.

## Chicago, Burlington and Quincy Railroad,

C. B. & Q. R. R. track elevation waterproofing. G. A. Haggander. 4:124-130. Jan. 1912.

Chicago lake front development. Linn White. 18:86-87;116. Mar. 1927.

## Chicago, Milwaukee, St. Paul &amp; Pacific R. R.

Evanston track elevation. E. O. Greifenhagen. 2:7-58. Jan. 1910.

## Chicago railways,

Some new buildings of the Chicago railways. E. F. Hiller. 1:230-244. May. 1909.

- Chicago River,  
 Chicago River Straightening. M. B. Golber. 20:85-87;110;112. Mar. 1929.  
 Proposed straightening. H. E. Young. 17:152-153. May 1926.
- Chicago - Sanitary district,  
 Modern sewage treatment in the Sanitary District of Chicago. F. W. Mohlman. 16:9-12;29-30. Nov. 1924.
- Chicago traffic signal system. C. S. Shaffer. 19:122-124;138. May, 1928.
- Chicago transportation problem. John Erickson (editorial). 7:147-149. Jan. 1915.

 Field for highway engineers. 8:134-139. Jan. 1916.
- City planning  
 Great American city of the future. J. L. Crane, Jr. 16:88;112. Nov. 1925.  
 Importance of city planning. (Editorial). C. H. Wacker. 8:88-92. Nov. 1915.

## Civil Engineering

Engineering and war. W. V. Judson. 7:135-140.

Jan. 1915.

Field for highway engineers. F. A. Churchill. 8:134-139. Jan. 1916.

Civil engineering corps of the Navy. R. W. Sturtevant.

17:129-130;160. May, 1926.

Clausen, H. W.

Foundation construction of proposed commercial building.

3:118-126. Jan. 1911.

Latest tunnel connection near Chicago Avenue pumping station, Chicago waterworks. 6:3-22. Nov. 1913.

New Southwest land and lake tunnel system of the Chicago waterworks. 5:3-31. Jan. 1913.

## Coal

Preparation of coal for the western market. Benedict

Shubart. 16:51-53. Jan. 1925.

Purchase on specifications. W. O. Collins. 4:246-250. May, 1912.

Coal, see also Briquetting(fuel).

Coal costs in boiler plants. G. A. Grassby, Jr.

8:166-168. Jan. 1916.

## Coal mines and mining

Mechanical loading underground in coal mines. Bene-

dict Shubart. 17:15-16;34;53-56;71;103-106;

137-139;164. Nov. 1925. Jan. 1926. March 1926, May, 1926.

## Coal purchasing

Purchase of coal on specification and test. W. O.

Collins. 2:197-199. May, 1910.

Co-efficient of discharge for given fluids and pipe

sizes. J. M. Spitzglass. 9:312. May, 1917.

Coffeen, H. C.

Salesmanship. 12:29-30. Nov. 1920.

Coffeen, Harry Clay,

(Obituary) 16:20. Nov. 1924.

Cohen, Louis,

Recent developments in wireless telegraphy.

4:65-75. Jan. 1912.

Cohn, J. W.

A telephone call. 9:35-44. Nov. 1916. 9:179-187. Jan. 1917.

## Coke ovens

By product coke ovens. L. A. Sanford. 11:81-94.  
Jan. 1920.

## Cold storage

Features of the new Fulton Market cold storage warehouse. L. L. Edlund. 12:217-235. May, 1921.

## College education

What does a college man know? G. V. Bradbury. 13:  
119-121. Jan. 1922.

College student and the National Guard. R. S. Mayo.  
17:101-102. Mar. 1926.

## College students

College student and the National Guard. R. S. Mayo.  
17:101-102. Mar. 1926.

Grading of college students. H. R. Phalen. 15:  
11-14. Nov. 1923.

## Collins, Charles W.

Illinois roads. 8:228-231. Mar. 1916.

## Collins, W. O.

Purchase of coal on specification and test. 2:197-  
199. May, 1910.

Purchase of coal on specifications. 4:246-250.  
May, 1912.

Collision of  $\alpha$ -particles with light atoms. Sir E.  
Rutherford. 11:34-44. Nov. 1919.

Color and the motion picture. M. B. Golber. 20:48-49;  
74;76;78. Jan. 1929.

## Color photography

Art of color reproduction through process plates. D.  
A. Patterson. 18:45-47. Jan. 1927.

Color photography (editorial). J. E. Snow. 6:225-  
227. Mar. 1914.

## Color reproduction

Art of color reproduction through process plates.  
D. A. Patterson. 18:45-47. Jan. 1927.

## Combustion

Combustion of fuel oil. Max Sklovsky. 11:269-279.  
May, 1920.

Combustion engines, see Internal combustion engines.

## Commencement addresses

An unofficial commencement address. J. C. Peebles.  
19:131;146. May, 1928.

Commencement address to the class of 1928. S. L.  
Avery. 20:5;30. Nov. 1928.

Comprehensive method of testing variable speed, variable  
load gasoline engines. Daniel Roesch. 10:303-  
307. May, 1918.

Computers for flow of liquid in pipes. 7:33-40.  
Nov. 1914. A. H. Anderson.

## Concrete

Mfg. of concretebricks. L. E. Grube. 18:53-72.  
Jan. 1927.

Measuring aggregate for concrete. W. E. Hall.  
17:95-97;106. Mar. 1926.

Concrete building. E. I. Silver. 4:85-100.  
Jan. 1912.

## Concrete-Reinforced

Design and construction of reinforced concrete building.  
E. I. Silver. 4:85-100. Jan. 1912.

Equipment of reinforced concrete factory buildings.  
M. W. Lee. 1:40-51. Jan. 1909.

A 100,000 gallon reinforced concrete tank. T. J.  
Ferrenz. 5:157-167. May, 1913.

Reinforced concrete designing. Ernest McCullough.  
1:268-280. May, 1909.

Concrete waterproofing. Arnold Pacyna. 6:186-202.  
Mar. 1914.

## Condensers

Influence of minnows in the circulating water of a  
condenser. 19:89;106. Mar. 1928.

Conduits, Electric, see Electric conduits.

## Confucius

One of the great religions of the world. N. J.  
Zenner. 18:56;74. Jan. 1927.

## Corrossion

Electrolytic corrosion and deterioration of under-  
ground metals. W. P. McGuire. 2:231-241.  
May, 1910.

Constants for various pipe sizes. J. M. Spitzglass.  
9:311. May, 1917.

## Continuation school

Efficiency -- education. H. W. Martin. 7:9-13.  
Nov. 1914.

## Converse, W. I.

Construction and operation of the Deering Southwestern  
Railway. 8:305-318. May, 1916.

## Cook County hospital

Some mechanical features. H. A. Durr. 7:41-50.  
Nov. 1914.

## Cook, D. I.

Car ventilation. 2:217-221. May, 1910.

## Cook, E. C.

LeRhone aircraft engine testing. 11:123-130.  
Jan. 1920.

## Cook, E. V.

How did you die (poem). 12:195. Nov. 1921.

## Cooley, L. E.

Illinois waterways (editorial). 7:142-146. Jan. 1915.

## Cooley, M. E.

Responsibility of education. 15:9-10;31. Nov. 1923.

## Cooley Prize

Old civilizations and our own. E. O. Pierce. Pt.1.  
16:13-14. Nov. 1924. Pt.2. 16:59-60. Jan. 1925.

## Cooling towers.

Properties of saturated and unsaturated air. G. F.  
Beghardt. 1:204-205. May, 1909.

## Corey, S. T.

New bridges from old. 17:66;76. Jan. 1926.

## Cornstalks -- A scientific romance. I. G. Katz.

20:130-131;158;160;162. May, 1929.

## Cost accounting

Cost plus vs. competitive bidding. R. M. Henderson.  
14:69-70;84. Nov. 1923.

Costs and the engineer. G. F. Wetzel. 12:158-165.  
Mar. 1921.

Cost accounting. G. F. Wetzel. 13:163-174. Mar. 1922.

## Cost records

Personal system and the consulting engineer. R. M.  
Henderson. 1:36-39. Jan. 1909.

Costs and the engineer. G. F. Welzel. 12:158-165.  
Mar. 1921.

# Council of National Defense

Dean H. M. Raymond appointed secretary (editorial)  
10:130-132. Jan. 1918.

# Crane, J. L. Jr.

Great American city of the future. 16:88;112.  
Nov. 1925.

# Crawford Avenue Station

Influence of minnows in the circulating water of a  
condenser. J. H. Bowman. 19:89;106. Mar. 1928.

# Crowley, R. W.

The diesel engine as a type. 7:209-214. Mar. 1915.

# Crown, V. M.

Portsmouth water development. 11:3-11. Nov. 1919.

# Crushing machinery

Crushing plants. Ellis Soper. 1:161-181. May, 1909.

Crushing plants. Ellis Soper. 1:161-181. May, 1909.

# Culture

Mission of culture. G. L. Scherger. 14:71-72.  
Mar. 1923.

# Curtis, Marston

Transmission and contact systems used on the electri-  
fied divisions of the CM&STP Ry. Co. 8:3-9.  
Nov. 1915.

# Curves

Performance curves of the engineer. W. J. Zenner.  
19:54. Jan. 1928.

Cycloidal weir meter. Wm. Brady, Jr. 8:367-370.  
May, 1916.

Dalton's laws. 1:197-198. May, 1909.

# Dean, Stanley

Description of some engineering features involved in  
the construction of Camp Jackson, Columbia, S. C.  
10:117-122. Jan. 1918.

Efficiency tests of Schenectady power Co's. hydraulic  
turbine units, nos. 2 & 3. 3:159-160. May, 1911.

Topographical survey of reservoir lands on Broad River,  
S. C. 2:87-95. Jan. 1910.

# Dean, W. T.

Electric driving of rolling mills. 3:84-102. Jan. 1911.

DeBeers, T. M.

Economic importance of multiple effect evaporation.  
2:151-157. May, 1910.

Decision and experience. (Editorial). 13:159. Mar. 1922.

Decisions and their relation to success. G. W. Thompson.  
19:10;14;30;36. Nov. 1927.

DeForest, Lee

My reminiscences of Armour Institute. 15:127-128;152.  
May, 1924.

Deitenbeck, Max

The "Bef", a new three wheel electromobile. 5:179-166.  
May, 1913.

Delaware river bridge. 18:22-23;28. Nov. 1926.

Demolition. Wm. Bready, Jr. 10:205-213. Mar. 1918.

Depots -- Railway

St. Paul Union Depot. G. H. Wilsey. 17:134-136;  
160;162. May, 1926.

Development of fire foam. J. T. Even. 19:126-128.  
May, 1928.

Detonation, see Gasoline, Anti-knock mixtures.

Diesel engines

Diesel engine in practice. C. E. Beck. 11:280-306.  
May, 1920.

Diesel engines as a type. Its characteristics and  
attempts at modification. R. W. Crowley. 7:209-  
214. Mar. 1915.

Diesel engines. W. T. Watt. 19:83-85. Mar. 1928.

Light weight high speed Diesel engines. M. J.

Kittler. 20:134;135;152;154. May, 1929.

The new plant of the Busch-sulzer Bros. Diesel Engine  
Co. 5:131-146. May, 1913.

Dietzsch, W. F.

Safety factor. 3:103-105. Jan. 1911.

Differentials and their use. C. I. Palmer. 13:108-118.  
Jan. 1922.

Dilution of the crank case oil of automotive engines.

C. M. Larson. 15:53-54;63. Jan. 1924.

Direct current motor control. A new system. H. I.

Rosenthal. 12:145-157. Mar. 1921.

- Doubt, T. E.  
(Editorial) 6:288-290. May, 1914.  
Helium -- an account of its discovery and properties.  
16:8;31;34. Nov. 1924.
- Downs, L. E.  
Heat transmission tests of walls. 19:8-9;28.  
Nov. 1927.
- Downs, W. E.  
Construction of a Chicago water tunnel. 18:57-58.  
Jan. 1927.
- Downton, F. G.  
Engineering in farm lighting. 7:295-300. May, 1915.
- Dozois, H. H.  
WENR -- The last word in radio stations. 20:136-137;  
156;158. May, 1929.

Developments in hydraulic turbines. Pt. 1. 20:12-13;  
34. Nov. 1928. Pt. 2. 20:54;78;80. Jan. 1929.  
Dynamometer car. 10:214-237. Mar. 1918.  
Thomas electric gas meter. 11:181-194. Mar. 1920.
- Economic importance of multiple effect evaporation.  
T. M. DeBeers. 2:151-157. May, 1910.
- Eddy current brakes. H. W. Nichols. 6:266-271.  
May, 1914.

## Education

- (Editorial) 1:6-8. Jan. 1909.  
 After graduation -- what? W. J. Zenner. 19:53-54;  
 56. Jan. 1928.  
 Efficiency - education. H. W. Martin. 7:9-13.  
 Nov. 1914.  
 Place of spirit in education. 13:202-203. Mar. 1922.  
 Responsibility of education. M. E. Cooley. 15:9-  
 10;31. Nov. 1923.

## Educational institutions.

- Utilities and educational institutions. G. K. Jones.  
 20:8;32. Nov. 1928.

## Editorials

- Advances in chemistry. Harry McCormack. 6:142-147.  
 Jan. 1914.  
 American ideals. Dr. G. L. Scherger. 10:338-345.  
 May, 1918.  
 Avoiding smoke, soot and dirt in steam generation.  
 P. A. Poppenhusen. 8:179-182. Jan. 1916.  
 Bolshevism and the American spirit. G. L. Scherger.  
 11:49-52. Nov. 1914.  
 Chicago transportation problem. John Erickson.  
 7:147-149. Jan. 1915.  
 Color photography. J. E. Snow. 6:225-227. Mar. 1914.  
 Dr. George L. Scherger. 6:287-288. May, 1914.  
 Electric vehicle practice as proposed by H. M. Ray-  
 mond and D. P. Moreton. 7:58-60. Nov. 1914.  
 Electrification of Chicago railway terminals.  
 8:177-179. Jan. 1916.  
 Engineer and a college man. 17:21. Nov. 1925.  
 Engineer and the musician. T. Michels. 13:122-23.  
 Jan. 1922.  
 Engineer and the profession. 11:236-238. Mar. 1920.  
 Engineer as a business man. 7:318-319. May, 1915.  
 Engineer in industrial life. W. K. Wilson. 13:268-  
 270. May, 1922.  
 Engineer in public service. 8:372-376. May, 1916.  
 Engineering and business. L. C. Monin. 9:268-270.  
 Mar. 1917.  
 Engineering and poetry. L. C. Monin. 9:270-271.  
 Mar. 1917.  
 An engineering education as preparation for the super-  
 vision of courses in industrial arts. 9:348-352.  
 May, 1917.  
 Engineers and other experts from a newspaper stand-  
 point. 8:267-270. Mar. 1916.  
 Engineer's personal qualifications. E. H. Freeman.  
 9:345-348. May, 1917.  
 How to prepare our uncalled man-power. J. J. Schommer.  
 10:254-257. Mar. 1918.  
 Illinois waterway. L. E. Cooley. 7:142-146. Jan. 1915.

## Editorials (cont'd).

- Importance of city planning. C. H. Wacker. 8:88-92.  
Nov. 1915.
- Manufacturing principles. A. W. Rahn. 10:250-254.  
Mar. 1918.
- Mrs. Julia Beveridge. In Memoriam. 11:46-49.  
Nov. 1919.
- Misuse of the word engineer. Capt. N. M. Stineman.  
10:140-141. Jan. 1918.
- Ethics of the engineering profession. D. L. C. Monin.  
5:224-228. May, 1913.
- Necessity for studying Spanish in American schools of  
various kinds and grades. J. A. L. Waddell.  
8:83-88. Nov. 1915.

May, 1912.

## Edlund, L. L.

- Features of the New Fulton Market cold storage ware-  
house. 12:217-225. May, 1921.

## Education

- Efficiency - Education. 7:9-13. Nov. 1914.

## Efficiency

Efficiency - Education. 7:9-13. Nov. 1914.

Man as a machine. G. E. Marsh. 8:285-297. May, 1916.

Thoughts on efficiency studies. E. F. Hiller.

7:128-134. Jan. 1915.

Elastic limit by temperature measurement. J. C. Peebles.  
6:272-276. May, 1914.

## Electric automobile

The "Bef", a new three wheel electromobile. Max  
Deitenbeck. 5:179-194. May, 1913.

## Electric circuits

Alternating current. General expressions for alter-  
nating current. G. E. Marsh. 2:211-216. May, 1910.

## Electric conductors

Eddy current brakes. H. W. Nichols. 6:266-271.  
May, 1914.

Electric conductors, see Electric cables, insulation,  
(electric).

## Electric conduits

Underground conduit for the distribution of electrical  
energy. W. F. Sims. 1:182-195. May, 1909.

Electric current circuit, see Electric current rectifiers.

## Electric currents

Bearing currents in machinery. E. H. Freeman.  
6:100-106. Jan. 1914.

General expression for alternating current circuits.  
G. E. Marsh. 2:211-216. May, 1910.

Electric distributing mains. G. E. Marsh. 2:66-70.  
Jan. 1910.

Electric driving of rolling mills. W. T. Dean. 3:84-  
102. Jan. 1911.

## Electric furnaces

High temperatures electric resistance furnace. H. R.  
Badger. 3:62-69. Jan. 1911.

Electric fuse for ordinary operating voltages. G. W.  
Borst. 7:51-55. Nov. 1914.

## Electric generators.

Higher harmonics in three phase systems. E. H. Free-  
man. 4:200-204. May, 1911.

## Electric motors

- Speed control for small motors. H. V. Nichols.  
6:3-32. Nov. 1913.
- A study of direct current motor defects. A. H.  
Wagner. 13:256-267. May, 1922.
- Slow speed motors and their application to recipro-  
cating air compressors. R. O. Joslyn. 12:226-  
239. May, 1921.

Electric railway valuation. H. R. Badger. 2:71-77.  
Jan. 1910.

## Electric railroads

- Application of automatic substations to interurban  
lines. C. H. Jones. 12:91-95. Jan. 1921.
- Low tension feeder systems. R. H. Rice. 4:113-123.  
Jan. 1912.
- Signaling for interurban electric railways. J. E.  
Saunders. 7:249-263. May, 1915.
- Transmission and control systems used on the elec-  
trified divisions of the C.M.&St.P.Ry. Co.  
Marston Curtis. 8:3-9. Nov. 1915.
- Twenty years of electric railroading. P. V. See.  
17:9-11. Nov. 1925.

Electric rates. G. E. Marsh. 7:89-110. Jan. 1915.

## Electric service

- Industrial electric service in the southern states.  
A. D. Quackenbush. 4:285-294. May, 1912.

Electric shock, see Electricity, injuries from.

## Electric substations.

- Automatically controlled substations. H. N. Simp-  
son. 8:326-335. May, 1916.

## Electric transmission

- Electric tension, D. C. transmission. Francis  
Fernandez. 5:185. May, 1913.
- Modern practice in high tension transmission.  
Louis Elliott. 5:32-44. Jan. 1913.

Electric vehicle practice. H. M. Raymond and D. P.  
Moreton. 7:58-60. Nov. 1914.

## Electric welding

- Modern electric welding. N. S. Ewing. 20:10-11;  
32. Nov. 1928.

## Electrical distribution systems

- Low tension feeder systems for street railways. R. H.  
Rice. 4:113-123. Jan. 1912.

## Electrical energy

Underground conduits for distribution of electrical energy. W.F.Sims. 1:182-195. May 1909.

## Electrical engineering

Electrical engineering. E.H.Freeman. 18:85;97.  
Mar. 1927.

Electrical industry and the electrical engineer.  
F.H.Berhard. 13:175-183. Mar. 1922.

## Electrical equipment

Selection of electric equipment for steel mills. F.M.  
Sturgess. 5:67-78. Jan.1913.

Electrical industry and the electrical engineer. F.B.  
Bernhard. 13:175-183. Mar.1922.

Electrical inspection. V.H.Tousley. 6:225-247. Mar.  
1914.

Electrical installation at the Gary works of the Indiana  
Steel Co. E.D.MacEwing. 2:140-147. Jan.1910.

## Electricity

Characteristics. H.W.Nichols. 8:232-237. Mar.1916.

Electricity the wonder worker. W.M.Seyfelich. 11:318-  
326. May 1920.

Automatically controlled sub-stations. H.N. Simpson.  
8:326-335. May 1916.

## Electricity, Injuries from

Reflex stimulation in injuries from electricity. H.B.  
Thomas. 6:37-46. Nov.1913.

Electrification, see, Railroads, Electrification

Electrification of Chicago railway terminals(Editorial)  
8:177-179. Jan.1916.

Electrifying the Illinois Central Railroad suburban service  
in Chicago. W.P. Monroe. 18:14-16. Nov.1926.

## Electrolytic corrosion

Electrolytic corrosion and deterioration of underground metals. W.P.McGuire. 2:231-241. May 1910.

Electrons. G. E. Marsh, Jr. 1:96-107. Jan.1909.

## Elevators

Elevators. A. H. Boehmer. 8:319-325. May 1916.

Its place in economics. C.W.Naylor(editorial)

8:183-185. Jan.1916.

## Elliott, Louis

Modern practice in high tension transmission. 5:32-44.

Jan.1913.

## Emerick, Frank

"Pittsburgh plus". 14:9-12;16-17. Nov. 1922.

## Engine efficiency

Efficiency of the internal combustion engine. Daniel

Roesch. 9:313-318. May 1917.

Engineer and a college man. (editorial) 17:21. Nov.1925.

Engineer and the musician. T.Michels.(editorial) 13:122-123. Jan. 1922.

## Engineer and politics

Should engineers take part in politics. (editorial)

9:188-193. Jan.1917.

Engineer and the profession. (editorial) 11:236-238.  
Mar.1920.

Engineer and the world's future. H.R.Wing. 13:196-198.  
Mar.1922.

Engineer as a business man. (editorial). 7:318-319.  
May, 1915.

Engineer as a salesman. M. A. Smith. 17:102.  
Mar. 1926.

Engineer as an advertising man. M. W. Lee. 17:11.  
Nov. 1925.

Engineer as editor. A. H. Packer. 17:46. Jan. 1926.

The engineer awakes. F. E. Newell. 8:69-82. Nov. 1915.

Engineer in business. (editorial). 1:2-5. Jan. 1909.

Engineer in industrial life. (editorial). W. K. Wilson.  
13:268-270. May, 1922.

Engineer in public service. 8:372-376. May, 1916.

Engineer in society. C. T. McDonald. 10:33-37. Nov.  
1917.

Engineer in the community. 13:245-249. May, 1922.

#### Engineering

Comments of engineering specialization. R. M. Henderson. 13:160-162. Mar. 1922.

Engineering in China. R. L. Larson. 15:129-130;  
152. May, 1924.

An essential of economic and military preparedness.  
12:71-77. Jan. 1921.

Technical man in the rubber industry. A. H. Smith.  
15:15-16;32. Nov. 1923.

Engineering and business. (editorial). L. C. Monin.  
9:268-270. Mar. 1917.

Engineering and poetry. L. C. Monin. 9:270-271.  
Mar. 1917.

Engineering college and the large city. H. M. Raymond.  
1:115-137. May, 1909.

Engineering and war. W. V. Judson. 7:135-140.  
Jan. 1915.

#### Engineering education

Business training for engineers. F. M. Atkins.  
15:131-133;153. May, 1924.

#### Engineering colleges

Engineering college and the large city. H. M. Raymond.  
1:115-137. May, 1909.

## Engineering education

- Business training for engineers. P. M. Atkins. 15:131-133:153. May, 1924.
- Comments on engineering specialization. R. M. Henderson. 13:160-162. Mar. 1922.
- Engineering colleges and the large city. H. M. Raymond. 1:115-137. May, 1909.
- Engineering education as preparation for the supervision of courses in industrial arts. (editorial). 9:348-352. May, 1917.
- Engineering majors. C. R. Birdsey. 14:105;126. May, 1923.
- New ideas in chemical education. (editorial). 1:5-6. Jan. 1909.
- Technical man in the rubber industry. A. H. Smith. 15:15-16;32. Nov. 1923.
- Us engineers don't need no English. J. C. Peebles. 20:129;154;156. May, 1929.

## Engineering - Ethics

- The engineer awakes. F. H. Newell. 8:69-82. Nov. 1915.
- Ethics of the engineering profession. Dr. L. C. Monin. 5:224-228. May, 1913.

## Engineering opportunities

- Opportunities for the young man in corporations. H. B. Hargey. 11:137-140. Jan. 1920. (editorial).

## Engineers

- Business and the engineer. L. C. Thoelecke. 18:134;154. May, 1927.
- Electrical engineering and the electrical engineer. F. H. Bernhard. 13:175-183. Mar. 1922.
- Engineer and the musician. T. Michels. 13:122-123. Jan. 1922.
- Engineer and the profession. 11:236-238. Mar. 1920.
- Engineer and the world's future. H. R. Wing. 13:196-198. Mar. 1922.
- Engineer as advertising man. U. W. Lee. 17:11. Nov. 1925.
- Engineer in business. (editorial). 1:2-5. Jan. 1909.
- Engineer in industrial life. (editorial). W. R. Wilson. 13:268-270. May, 1922.
- Engineer in the community. 13:245-249. May, 1922.
- Opportunities for the technical man in public service. F. G. Heuchling. 5:195-213. May, 1913.
- Position of the engineer in society. C. T. McDonald. 10:33-37. Nov. 1917.
- Resourcefulness of the engineer. (editorial). 10:139-140. Jan. 1918.

Engineers and other experts. (editorial). From a newspaper standpoint. 8:267-270. Mar. 1916.

Engineers personal qualifications. E. H. Freeman. (editorial). 9:345-348. May, 1917.

Engines, see  
Gasoline engines  
Gas and oil engines

Entropy  
Entropy: What is it? C. V. Kerr. 10:123-129. Jan. 1917.

Erickson, John  
Chicago transportation problem. (editorial). 7:147-149. Jan. 1915.

Ethics of the engineering profession. Dr. L. C. Monin. 5:224-228. May, 1913.

European tours. 19:96. Mar. 1928.

Eustice, A. L.  
(Biographical sketch) 18:99-100. Mar. 1927.  
Westinghouse Nernst lamp. 1:73-91. Jan. 1909.

Evans, P. W.  
Calculation of data on coals and cinders for heat balances. 7:301-307. May, 1915.

Evaporation - Economic importance of multiple effect. T. M. DeBeers. 1:151-157. May, 1910.

Evaporative surface condenser. (Gebhardt, G. F., Properties of saturated and unsaturated air). 1:205-207. May, 1909.

Even, J. T.  
Development of fire foam. 19:126-128. May, 1928.

Evolution of the skyscraper. A. N. Rebori. 4:52-64. Jan. 1912.

Ewing, N. S.  
Friction loss in silk hose. 19:128. May, 1928.  
Modern electric welding. 20:10-11;32. Nov. 1928.

Experiences of an architect. C. E. Wolfley. 16:15;32. Nov. 1924.

Factories  
A new factory. F. G. Odgers. 12:41-44. Nov. 1920.

## Factories (cont'd).

Factory Buildings. Equipment of reinforced concrete.

M. W. Lee. 1:40-51. Jan. 1909.

Factors in ventilation. W. O. Armspach. 10:238-244.

Mar. 1916.

Factors of design for two cycle oil engines. D. O.

Barrett. 8:10-29. Nov. 1915.

## Factory buildings

Equipment of reinforced concrete. M. W. Lee.

1:40-51. Jan. 1909.

Factory management, see Scientific management.

Factory power. T. W. Simpson. 2:164-175. May, 1910.

## Farm power

Transmitted power for the farm. F. C. VanEtten.

11:195-207. Mar. 1920.

Farm problem. I. W. Baughman. 4:193-199. May, 1912.

## Farrell, F. B.

String-lining high speed railroad curves. 20:92-

93. Mar. 1929.

Farrel Mill. A. H. Smith. 15:15. Nov. 1923.

## Faulkner, C. D.

Impressions of four great cathedrals. 5:90-97.

Jan. 1913.

## Fernandez, Francis

High tension direct current transmission. 5:185-

194. May, 1913.

## Ferrenz, Tirrell J.

A 100,000 gallon reinforced concrete tank. 5:157-

166. May, 1913.

Fessenden interference prementer. 4:73. Jan. 1912.

Field practice in surveying. A. E. Phillips.

7:263-268. May, 1915.

## Field practice in surveying.

Boy surveyors in Wisconsin. A. B. Stevens.

19:15;30. Nov. 1927.

Boy trail blazers. L. C. Kantner. 20:9. Nov. 1928.

## Field practice in surveying. (cont'd)

- AIT summer camp notes. 9:78-79. Nov. 1916.
- Summer camp. R. L. Lawson. 16:7;32. Nov. 1924.
- Summer camp. Walter Pittelkow. 18:11;34. Nov. 1926.
- Summer camp views. 8:108-109. Nov. 1915.
- Summer of 1914. J. C. Penn. 7:269-273. May, 1915.

Fifty foot interferometer telescope. T. G. Pease.  
16:125-128. May, 1925.

Filters and filtration. Charles Ness. 6:126-137.  
Jan. 1914.

## Financial training

- Importance of financial training. Carl Heim. 16:  
92;112. Mar. 1925.

## Finnegan, Joseph B.

- Chicago bureau of fire prevention and public safety.  
8:63-68. Nov. 1915.
- National fire loss. 2:59-65. Jan. 1910.

## Fire alarms

- Fire alarm systems. C. D. Whitney. Pt. 1. 16:89-  
91;107. Mar. 1925. Pt. 2. 16:134-136. May, 1925.

## Fire extinguishers

- Chemical fire extinguishers. N. F. Kimball. 12:240-  
250. May, 1921.
- Development of fire foam. J. T. Even. 19:126-128.  
May, 1928.

## Fire foam

- Development of fire foam. J. T. Even. 19:126-128.  
May, 1928.

## Fire hazards

- Mfg. of pigments, as seen by the insurance engineer.  
J. R. Wilson. 5:147-156. May, 1913.

## Fire hazards in fuel storage. R. E. Kilbourne.

20:138-139;158. May, 1929.

Fireproof houses. H. S. Powers. 1:52-61. Jan. 1909.

Fire prevention, see Fire protection.

## Fire protection

- Automatic control of fire. Fitzhugh Taylor.  
4:226-245. May, 1912.
- Automatic sprinkler. C. R. Alling. 4:131-137.  
Jan. 1912.
- Building to reduce fire losses. C. K. Stiff.  
18:130-132;152. May, 1927.

## Fire protection (cont'd)

- Chicago bureau of fire prevention and public safety.  
J. B. Finnegan. 8:63-68. Nov. 1915.
- Field of fire prevention and fire protection engineering. N. T. Kimball. 10:187-203. Mar. 1918.
- Fire hazards in fuel storage. R. E. Kilbourne.  
20:138-139;158. May, 1929.
- Fire tests of building columns. N. F. Kimball.  
10:107-116. Jan. 1918.
- Interior standpipes and hose systems. N. F. Kimball.  
9:10-23. Nov. 1916.
- Manufacturing of pigments, as seen by the insurance engineer. J. R. Wilson. 5:147-156. May, 1913.
- Snapshot at fire prevention. R. E. Vernor. 14:6.  
Nov. 1922.
- Sparks for the engineer. R. E. Vernor. 15:140;152.  
May, 1924.
- Fire protection engineering. C. M. Cartwright.  
14:47-56. Jan. 1923.
- Fire protection engineering course starts. 2:2-4.  
Jan. 1910.
- Fire protection engineering society. Engineering  
scholarships. 6:294-296. May, 1914.
- Fire pumps. Fitzhugh Taylor. 4:226-245. May, 1912.
- Fire pumps centrifugal. E. E. Maher. 7:274-294.  
May, 1915.
- Fire resistance, see Fire protection.
- Fire tests of building columns. N. F. Kimball.  
10:107-116. Jan. 1918.
- Fire Underwriters Association.  
Tribute of the underwriters. 13:43-46. Nov. 1921.
- Fires  
Building to reduce fire losses. C. K. Stiff.  
18:130-132;152. May, 1927.
- National fire loss. J. B. Finnegan. 2:59-65.  
Jan. 1910.
- Fisher, A. E.  
Classification of books. 11:131-133. Jan. 1920.
- Flag. 10:246-248. Mar. 1918.
- Flanders, L. E.  
Hydrometer in the operation of storage batteries.  
1:143-160. May, 1909.

Flinn, M. S.

Anthracite producer gas for fuel purposes. 3:213-225. May, 1911.

Flood lighting.

Modern light painting. R. H. Harridge. 19:93-94. Mar. 1928.

Flooring

Treated wood block for factory flooring. C. H. Teesdale. 8:258-265. Mar. 1916.

Flow of liquids

Calculations and measurements of the flow of liquids. J. M. Naiman. 11:17-33. Nov. 1919. Pt. 2. 11:110-122. Jan. 1920.

Flow of liquids and frictional resistance in pipes. J. M. Spitzglass. 19:223-231. Mar. 1917. 302-312. May, 1917.

Measuring flow of liquids electrically. Spitzglass and Freeran. 14:73-74;79-80;94. Mar. 1923. Spitzglass computer. 7:33-40. Nov. 1914.

Flow of water - diagram. H. W. Youngberg. 2:108-109. Jan. 1910.

Flux of light method of performing illumination calculations. W. E. Barrows. 4:3-29. Jan. 1912.

Flynn, J. M.

From news to newspaper. 20:88-90;112. Mar. 1929. Pt. 2. 20:132-133;150;152. May, 1929.

Ford, T. C.

Systematic inspection of bituminous pavements. 8:123-129. Jan. 1916.

Ford, T. S.

Artesian water in the Orient. 3:56-61. Jan. 1911.

Forest products Laboratory. F. J. Champion. 16:129-130;152. May, 1925.

Forestry

Forests of the U. S. Leonard Lundgren. 7:235-248. May, 1915.

Forests of the U. S. Leonard Lundgren. 7:235-248. May, 1915.

Foss, S. W.

House by the side of the road. (poem) 13:47-48. Nov. 1921.

Fraser and Chalmer's furnace. 4:168. May, 1912.

Freeman, E. H.

Bearing currents in machinery. 6:100-106. Jan. 1914.

Electrical engineering. 18:85;97. Mar. 1927.

Higher harmonics in three phase systems. 4:200-214.

May, 1912.

Measuring the flow of liquids electrically. J. M.

Spitzglass & (Freeman). 14:73-74;79-80;94.

Mar. 1923.

Resourcefulness of the engineer. (editorial).

10:139-140. Jan. 1918.

Freud, B. B.

Catalysis, or contact action. 3:38-47. Jan. 1911.

Fritch, D. C.

Chicago railroad terminal problem. 4:144-148.

Jan. 1912.

Friction loss in silk hose. N. S. Ewing. 19:128.

May, 1928.

From news to newspapers. J. M. Flynn. 20:88-90;112.

Mar. 1929. Pt. 2. 20:132-133;150;152. May, 1929.

Fuel

Briquetted coal. C. T. Malcolmson. 3:3-37. Jan. 1911.

Combustion of fuel oil. Max Sklovsky. 11:269-279.

May, 1920.

Fulton market cold storage warehouse. L. L. Edlund.

12:217-225. May, 1921.

Furnaces

Economy oil burning furnaces. L. H. Badger. 12:78-90.

Jan. 1921.

Electrical induction furnace. W. M. Seyferlich. 11:

211-221. Mar. 1920.

High grade malleable iron. Air furnace mfg.

George B. Stantial. 18:50-52;58. Jan. 1927.

High temperature electric furnace. H. R. Badger. 3:32-63. Jan. 1911.

World's largest blast furnace. Weirton stack.

Heat transference in furnaces. Max Sklovsky. 6:169-

185. Mar. 1914.

Fuses, see Electric fuses.

Future of American highways. H. J. Armstrong. 7:121-

127. Jan. 1915.

Garbage reduction plant of Columbus Ohio. J. J.

Schommer. 9:319-331. May, 1917.

Garfield, Arthur

A private and a president. W. L. Visscher. (editorial.) 10:346-350. May, 1917.

Gary steel plant.

Morgan gas producer installation at Gary steel plant.

W. R. Wilson. 1:62-72. Jan. 1909.

Gary works of the Indiana steel works. Electrical installation. 2:140-147. Jan. 1910. E. D. MacEwing.

Gas and oil engines

Factors of design for two cycle oil engines. D. O. Barrett. 8:10-29. Nov. 1915.

The MEP of gas engines. Daniel Roesch. 8:213-227. Mar. 1916.

The Mietz and Weiss oil engine. E. E. Maher. 4:251-261. May, 1912.

Testing gasoline motors. Daniel Roesch. 10:303-307. May, 1918.

Gas Calorimetry. C. E. Beck. 3:48-55. Jan. 1911.

Gas engine operating data. Daniel Roesch. 5:51-58. Jan. 1913.

Gas problems -- Logarithmic coordinate in gas problems. J. M. Spitzglass. 2:123-139. Jan. 1910.

Gas producers

Morgan gas producer installation at Gary. W. R. Wilson. 1:62-72. Jan. 1909.

Gases, Industrial.

Industrial gases. C. C. Hotchkiss. 6:79-99. Jan. 1914.

Gasoline -- Antiknock and antiknock mixtures.

Audibility spark-advance antiknock tests. Daniel Roesch. 19:132-135; 156. May, 1928.

Comprehensive method of testing variable speed load gasoline engines. Daniel Roesch. 10:303-307. May, 1918.

What price knock? 18:54-55; 72. Jan. 1927. Daniel Roesch.

Soothing the internal combustion engine. Daniel Roesch. 17:50-51. Jan. 1926.

Gates Gytratory breakers. (Illus.) 1:166. May. 1909.

Gages

Vacuum gage. 15:143; 156. May, 1924.

Gearing

Impact machine gearing for testing. M. C. Shedd. 1:251-259. May, 1909.

# Illinois waterway

Illinois waterway. L. E. Cooley. (editorial).

7:142-146. Jan. 1915.

The status of the Illinois waterway. Murray Blanchard.

18:133;138. May, 1927.

Illuminating, see Lighting.

Illumination calculations. Bibliography. 4:30-31.

Jan. 1912.

Imhoff tanks. 16:9-12;29-30. Nov. 1924.

Impact machine and its equipment for testing draft gears.

E. C. Shedd. 1:251-259. May, 1909.

Importance of financial training. Carl Heim. 16:92;112.

Mar. 1925.

Impression of four great cathedrals. C. D. Faulkner.

5:90-97. Jan. 1913.

Impulse water wheels, see Water wheels.

Increasing boiler furnace efficiency. C. E. Beck.

2:96-98. Jan. 1910.

# Industrial arts

An engineering education as preparation for the supervision of courses. (editorial). 9:348-352.

May, 1917.

Industrial gases. C. C. Hotchkiss. 6:79-99. Jan. 1914.

Inexpensive fireproof house. E. S. Powers. 1:52-61.

Jan. 1909.

Influence of minnows in the circulating water of a condenser.

J. H. Bowman. 19:89;106. Mar. 1928.

Initiative. J. O. Armour. 10:333. May, 1918.

Inspection - Electrical, see Electrical inspection.

# Insulating materials

Insulation of sound by double partitions. F. E.

Sabine. 17:131-133. May, 1926.

# Insull, Samuel

Address to Alumni Ass'n. "Production and distribution of energy". Dec. 1911. 4:152. Jan. 1912.

A letter. (an occasion of merging with NW Univ. ).

17:94. Mar. 1926.

Insurance and the insurance engineer. A. M. Jens.  
7:111-120. Jan. 1915.

Insurance -- Fire insurance and the insurance engineer.  
A. M. Jens. 7:111-120. Jan. 1915.

Interior standpipes and hose systems. N. F. Kimball.  
9:10-23. Nov. 1916.

Internal combustion engine.

AIT internal combustion engine engineering laboratory.

Daniel Roesch. 10:102-106. Jan. 1918.

Efficiency of internal combustion engines. Daniel  
Roesch. 9:313-318. May, 1917.

Factor tests of internal combustion engines. Daniel  
Roesch. 20:96-97;116. Mar. 1929.

Fuel and air mixing devices for internal combustion  
engines. Daniel Roesch. 12:96-105. Jan. 1921.

Internal combustion engines. Daniel Roesch. 17:50-  
51. Jan. 1926.

Interpole

Forced ventilation and interpole. (editorial).  
1:9-11. Jan. 1909.

Ira Pettibone -- Optimist. (poem). W. B. Amsbary. 14:24.  
Nov. 1922.

Iron

High grade malleable iron. G. B. Stantial. 18:50-52;  
58. Jan. 1927.

What and why is malleable iron. H. A. Schwartz.  
11:95-110. Jan. 1920.

Irrigation

Government rights of way for irrigation. Leonard Lund-  
gren. 8:161-165. Jan. 1916.

James, S. V.

Automobile brakes. 13:1-21. Nov. 1921.

Investigation of safety goggles at Underwriters Lab-  
oratories. 9:57-65. Nov. 1916.

Power necessary to drive an aeroplane. 3:226-231.  
May, 1911.

Present status of the problem of aeroplane stability.  
6:27-36. Nov. 1913.

Role of the aerodynamical laboratory in the develop-  
ment of aeronautics. 4:101-112. Jan. 1912.

Stresses in ships. 10:281-301. May, 1918.

Jens, A. M.

Insurance and the insurance engineer. 7:111-120.

- North side sewage treatment plant. 19:49-50;56. Jan. 1928.

Larson, R. L.

Engineering in China. 15:129-130;152. May, 1924.

Latest tunnel connection near the Chicago pumping station,  
Chicago water works. H. C. Clausen. 6:3-22.  
Nov. 1913.

Lawson, R. L.

Summer camp, AIT. Trout Lake, Wisc. 16:7:32.  
Nov. 1924.

Lead ores

Roasting and sintering lead ores. H. B. Pulsifer.  
4:163-192. May. 1912.

Lee, M. W.

Advertising for the practical engineer. 14:7-8.  
Nov. 1922.

Engineer as advertising man. 17:11. Nov. 1925.  
Equipment of reinforced concrete factory buildings.  
1:40-51. Jan. 1909.

Leininger, W. G.

City pavement maintenance and repair work in Chicago.  
7:173-180. Mar. 1915.

Specification of the bureau of streets of Chicago.  
2:176-196. May, 1910.

Le Rhone aircraft engine testing. E. C. Cook. 11:  
126-130. Jan. 1920.

Light weight high speed Diesel engines. M. J. Kittler.  
20:134-135;152;154. May, 1929.

Lighting

Electric lighting plants in small villages. G. I.  
Stadeker. 8:238-244. Mar. 1916.

Engineering in farm lighting. P. G. Downton. 7:295-  
300. May, 1915.

Electric lighting plants in small villages. G. I.  
Stadeker. 8:238-244. Mar. 1916.

Flux of light methods of performing illumination cal-  
culations. W. E. Marrows. 4:3-29. Jan. 1912.

Modern light painting. R. H. Erridge. 19:93-94.  
Mar. 1928.

Municipal versus public utility operation of an elec-  
tric lighting plant. C. R. Shuler. 17:17-18;34.  
Nov. 1925.

Locomotives

Largest locomotive in the world. 18:67-68. Jan. 1927.

Logarithmic coordinates. Spitzglass, J. W. 2:123-139.  
Jan. 1910.

Lohner, C. L.

Engineering and progress in the packing industry.  
20:91;118. Mar. 1929.

London guarantee and accident bldg. (plate). Alfred S.  
Alschuler. 14:38. Jan. 1923.

Low tension feeder systems for street railways. R. H.  
Rice. 4:113-123. Jan. 1912.

Lumber

Some observations on lumber and timber. D. F. Holtman.  
17:12-14;32. Nov. 1925.

Standardization of lumber. C. E. Paul. 12:189-192.  
Mar. 1921.

Lundgren, E. L.

Talk on the Philippine Islands. 4:271-284. May, 1912.

Lundgren, Leonard

Government rights of way for irrigation. 8:161-165.  
Jan. 1916.

Forests of the United States. 7:235-248. May, 1915.

Water powers of Southeastern Alaska. 8:30-45. Nov. 1915.  
8:245-257. Mar. 1916. 8:358-366. May, 1916.

M. E. P. of a gas engine. Daniel Roesch. 8:216-227.  
Mar. 1916.

McCormack, Harry,

Laboratory instruction in industrial chemistry.  
2:78-85. Jan. 1910.

The McMuller process for sugar manufacture. 3:250-  
258. May, 1911.

Oxidation of atmospheric nitrogen to produce compounds  
of nitrogen. 6:142-147. Jan. 1914.

McCullough, Ernest

Reinforced concrete designing. 1:268-280. May, 1909.

McDonald, C. T.

Position of the engineer in society. 10:33-37.  
Nov. 1917.

Malleable iron, see, Cast iron.

Man as a machine. G. E. Marsh. 8:285-297. May 1916.

Man of intellect. J. C. Peebles. 18:98. Nov.1927.

Manske, R. D.

Modern uses of gypsum. 19:46-48; 68; 72; 74. Jan.1928.

Manufacture of manganese steel castings. B. S. Carr.

10:155-186. Mar. 1918.

Marco, Fred

Armour Tech radio station. "9YL". 14:114-115; 126.

May 1923.

Marsh, G. E.

Electric rates. 7:90-110. Jan. 1915.

Electrons. 1:96-107. Jan. 1909.

General expressions for alternating current circuits.

2:211-216. May1910.

Graphical representation of certain factors relating  
to electric distributing mains. 2:66-70. Jan. 1910.

Man as a machine. 8:285-297. May 1916.

Mipgometer. 9:332-335. May 1917.

Marshall, H. B.

Storage batteries for small central station power plants  
5:104-108. Jan.1913.

Marti, O. K.

Modern mercuryarc power rectifiers. 19:11; 28. Nov.1927.

Martin, H. W.

Efficiency - education. 7:9-13. Nov. 1914.

Mathematics

Differentials and their use. C. I. Palmer. 13:108-118.  
Jan.1922.

Mayo, R. A.

College student and the National Guard. 17:101-102.

Mar.1926.

Mean effective pressure. Daniel Roesch. 6:256-265. May 1914.

Measuring the flow of liquids electrically. J. M. Spitz-  
glass and E. H. Freeman. 14:73-74; 79-80; 94. Mar.1923.

Mechanical loading

Mechanical loading underground in coal mines. Benedict  
Shubart. 17:15-16; 34; 53-56; 71; 103-106; 137-139; 164.  
Jan., Mar., May 1926.

Mechanics, Department of - Founded. 7:61. Nov.1914.

Memorial resolutions on the death of Mrs. P. D. Armour  
and Mr. J. Odgen Armour. 19:7. Nov. 1927.

Merchant marine

Armour and the merchant marine. P. C. Huntly. 10:17-21.  
Nov. 1917.

Mercury arc rectifiers

Modern mercury arc power rectifiers. O. K. Martin. 19:11;  
28. Nov. 1927.

Merrill, W. H.

Fire protection engineering department. A.I.T.1903.  
15:23. Nov. 1923.

Message to Garcia. Elbert Hubbard (review) 16:103-105.  
Mar. 1925.

Metallurgical plants in the vicinity of Chicago. H. B.  
Pulsifer. 7:14-22. Nov. 1914.

## Metallurgy

Mettalurgical plants in the vicinity of Chicago.

H. B. Pulsifer. 7:14-22. Nov. 1914.

Recovery of vanadium from roscolite ores. A. H.

Carpenter. 13:184-195. Mar. 1922.

## Meters

Cycloidal weir meter. Wm. Brady, Jr. 8:367-370.

May, 1916.

Thomas electric gas meter. R. H. Earle. 11:181-194.

Mar. 1920.

## Michels, T.

Engineer and the musician. (Editorial). 13:122-123.

Jan. 1922.

Mietz and Weiss oil engine. E. E. Maher. 4:251-261.

May, 1912.

Miles-per gallon meter. (Mipgometer). G. E. Larsh.

9:332-335. May, 1917.

## Military engineering

General duties and work of the military engineer.

9:336-344. May, 1917.

Mipgometer. G. E. Larsh. 9:332-335. May, 1917.

Mission of culture. G. L. Scherger. 14:71-72.

Mar. 1923.

Misuse of the word engineer. Capt. N. M. Stineman.

(editorial). 10:140-141. Jan. 1918.

## Models

Model aeroplanes. W. E. Schweitzer. 16:16;30.

Nov. 1924.

Modern farm problems and the engineer. I. N. Baughman.

4:193-199. May, 1912.

Modern light painting. R. H. Harridge. 19:93-94.

Nov. 1928.

Modern mercury arc power rectifiers. O. K. Marti.

19:16;29. Nov. 1927.

Modern passenger car truck. E. C. Brubaker. 6:203-

215. Mar. 1914.

Modern practice in high tension transmission. Louis

Elliott. 5:32-44. Jan. 1913.

- Modern sewage treatment in the Sanitary district of Chicago. Mohlman, F. W. 16:9-12;29-30. Nov. 1924.
- Modern uses of gypsum. R. D. Janski. 19:46-48;68;72;74. Jan. 1928.
- Mohlman, F. W.  
Modern sewage treatment in the Sanitary district of Chicago. 16:9-12;29-30. Nov. 1924.
- Monin, L. C.  
An address on Occasion of merging with N. C. Univ. 17:91-92. Mar. 1926.  
An alumnus says farewell. 18:129. May, 1927.  
Engineering and business. (editorial). 9:268-270. Mar. 1917.  
Engineering and poetry. (editorial). 9:270-271. Mar. 1917.  
"Ethics of the engineering profession". 5:224-228. May, 1913.  
An expression from the faculty on the resignation of Dean Monin. 18:128. May, 1927.  
A farewell address. 18:125-27. May, 1927.  
The ideal must be attainable. (editorial). 11:134-137. Jan. 1920.  
Letter from L. C. Monin. 19:19. Nov. 1927.  
Letter to the graduating class, 1928. 19:121;138. May, 1928.  
Students' message to Dean Monin. 18:128. May, 1927.  
Twenty-five years of AIT. (A retrospect and a promise.) (editorial). 10:336-337. May, 1918.
- Monroe, E. P.  
Electrifying the Illinois central railroad suburban service in Chicago. 18:14-16;34. Nov. 1926.
- Morgan gas producer installation at Gary. W. R. Wilson. 1:62-72. Jan. 1909.
- Morkrum telegraph printer. H. R. Frum. 7:308-315. May, 1915.
- Moskovics, F. E.  
Past, present, and future trends in motor car design. 13:22-26. Nov. 1921.  
Resigns from Stutz Motor Co. 20:104. Mar. 1929.
- Motors, Electric, see Electric motors.
- Moving pictures  
Color and the motion picture. M. B. Golber. 20:48-49;74;76;78. Jan. 1929.

Municipal versus public operation of an electric lighting plant. C. R. Shaler. 17:17-18;34. Nov. 1925.

#### Musicians

Engineer and the musician. 13:122-123. Jan. 1922.

Nachman, Henry L.

"Elements of Machine Design". Book review. 10:351.  
May, 1918.

Naiman, J. M.

Calculation and measurement of the flow of fluids in pipes. 11:17-33. Nov. 1919. 11:110-122. Jan. 1920.  
Measurement of flow. 14:75-76;81-84. Mar. 1923.  
14:106-112;123. May, 1923.

National fire loss. J. B. Finnegan. 2:59-65. Jan. 1910.

#### National defense

Our national defense policy. C. L. Bolte. 16:85-87;  
110. Mar. 1925.

#### National guard

College student and the National guard. R. S. Mayo.  
17:101-102. Mar. 1926.

#### National tuberculosis ass'n.

Hunters in the dark. A. Schaeffer, Jr. 19:34.  
Nov. 1927.

Natural gas and its distribution. J. G. Hatman. 4:138-  
143. Jan. 1912.

Nedved, R. J.

Recent successes of the Dept. of Architecture. 16:95-  
96;107. Nov. 1925.

Nelson, E. L.

Transmitting equipment for radio telephone broadcasting.  
16:93-94;109. Mar. 1925. 16:131-133;157;161.  
May, 1925.

#### Nernst lamp

Westinghouse nernst lamp. A. L. Eustice. 1:73-91.  
Jan. 1909.

Ness, Charles

Filters. 6:126-137. Jan. 1914.

New bridges from old. S. T. Corey. 17:66;76. Jan. 1926.

A New factory. F. G. Odgers. 12:41-44. Nov. 1920.

New method of sugar manufacture. E. W. Mullen. 1:260-267. May, 1909.

Newell, F. H.

The engineer awakes. 8:69-82. Nov. 1915.

Newlander, R. A.

New Chicago telegraph building of the Western Union Telegraph Co. W. H. Drew and R. A. Newlander. 12:166-172. Mar. 1921.

#### Newspapers

From news to newspapers. J. P. Flynn. 20:88-90;112. Mar. 1929. 20:132-133;150;152. May, 1929.

Nichols, H. W.

Characteristics. 8:232-237. Mar. 1916.

Eddy current brakes. 6:266-271. Mar. 1914.

Speed control for small motors. 6:23-26. Nov. 1913.

Symbolic representation of alternating current quantities.

4:45-51. Jan. 1912.

Talking from New York to London. 15:19-20;52. Nov. 1923.

North side sewage treatment plant. H. E. Larson. 19:49-50;56. Jan. 1928.

Northwestern University stadium. J. R. Griffith.

18:12-13. Nov. 1926.

Nozzles for impulse water wheels. A. H. Anderson. 1:200-203. May. 1910.

#### Obituararies:

Alling, Claude R. 18:16. Nov. 1926.

Freeman, Clarence E. 20:17. Nov. 1928.

Miller, W. E. 19:16. Nov. 1927.

Powers, Horace Sweet. 20:21. Nov. 1928.

Smalley, J. S. 19:16. Nov. 1927.

Urban, John W. 20:17. Nov. 1928.

O Captain! My captain. Walt Whitman. 12:268. May. 1921.

Octave chanute medal (footnote). 4:113-123. Jan. 1912.

Odgers, P. G.

A new factory. 12:41-44. Nov. 1920.

Oehne, W. S.

External forces acting on an aeroplane when in motion.  
4:262-270. May, 1912.

Oil burning furnaces. L. H. Badger. 12:78-90.  
Jan. 1921.

Oil hydrogenation. Herbert Sieck. 11:13-15. Nov. 1922.

Oils -- pine, see Pine oil.

Old civilizations and our own. E. D. Pierce.  
16:13-14:31-32. Nov. 1924.  
16:59-60. Jan. 1925.

Open hearth furnaces

Morgan gas producer installation at Gary. W. R.  
Wilson. 1:62-72. Jan. 1909.

Opportunities for the technical man in public service.  
T. G. Heuchling. 5:195-213. May, 1913.

Opportunity (editorial). 9:67-69. Nov. 1916.

Organization and the individual. W. R. Wilson. 9:3-9.  
Nov. 1916.

Organization charts

Personal systems and the constructing engineer. R. M.  
Henderson. 1:25-39. Jan. 1909.

Organization -- diagram. 2:72. Jan. 1910.

Ossein flow sheet.

Technology of gelatin. T. R. Johnson. 15:70. Jan. 1924.

Our national defense policy. C. L. Bolte. 16:85-87. 110.  
Mar. 1925.

Oxidation of atmosphere

Nitrogen to produce compounds of nitrogen. Harry .  
McCormack. 6:142-147. Jan. 1914.

Packer, A. H.

Engineer as an editor. 17:46. Jan. 1926.

Packing industry

Engineering and progress in the packing industry. C.  
L. Lohner. 20:91;118. Mar. 1929.

Pacyna, Arnold

Waterproofing of concrete. 6:186-202. Mar. 1914.

## Palaces

Where kings have lived. J. H. Bischof. 5:97-103.  
Jan. 1913.

## Palmer, Irwin Claude

Biographical sketch. 18:142. May, 1927.  
Differential and its use. 13:108-118. Jan. 1922.

## Panama

Army and civilian methods of handling materials in  
Panama. 8:298-304. May, 1916.

## Paper industry and trade.

Cornstalks -- a scientific romance. I. G. Katz.  
20:130-131;158;160;162. May, 1929.  
Notes on the wood yard and wood room of the cellulose  
mill. C. C. Heritage. 10:1-16. Nov. 1917.  
Research unit in the book paper industry. D. E. Cable.  
18:94-96. Mar. 1927.

## Parks

Chicago lake front development. Linn White. 18:86-  
87;116. Mar. 1927.

## Parsons, H. N.

How ball bearings are made. 17:47-49;70. Jan. 1926.  
17:98-100. Mar. 1926.

## Participation (editorial). 14:48. Jan. 1923.

## Past, present and future trends in motor car design.

F. E. MosKovics. 13:22-26. Nov. 1921.

## Patent system

Some comments on the patent system. T. A. Banning, Jr.  
7:23-32. Nov. 1914.

## Patents

Patent privilege in the U. S. C. W. Hills. 15:99-  
100;114. Mar. 1924.  
Some comments on the patent system. T. A. Banning, Jr.  
7:23-32. Nov. 1914.

## Patterson, D. A.

Art of color reproduction through process plates.  
18:45-47. Jan. 1927.

## Patrick, W. . and G. C. Wilsnack

New volumetric method for tin. 5:45-50. Jan. 1913.

## Paul, C. E.

Standarization of lumber. 12:189-192. Mar. 1921.

## Pavements

- Asphaltic highway construction. D. T. Pierce.  
8:130-139. Jan. 1916.  
City pavement maintenance and repair work in Chicago.  
W. G. Leininger. 7:173-180. Mar. 1915.  
Some creosoted wood block pavements in Chicago.  
W. F. Harvey. 4:215-225. May, 1912.  
Systematic inspection of bituminous pavements. T. C.  
Ford. 8:123-129. Jan. 1916.

## Pease, F. G.

- Biographical sketch. 17:57-58. Jan. 1926.  
Fifty foot interferometer telescope. 16:125-128.  
May, 1925.  
The 100 inch Hookes reflecting telescope of the Mount  
Wilson Observatory. 11:307-316. May, 1920.  
World's largest telescope constructed by Armour Tech  
Alumnus. 20:21. Nov. 1928.

## Pearson, A.

- Satisfactory method for the determination of benzene  
and toluene in crude toluol. 10:38-48. Nov. 1917.

## Peckham, J. O.

- Charles Steinmetz. by J. H. Goodmansson, E. A. Klein,  
J. O. Peckham. 15:141-142;154. May, 1924.

## Feebles, J. C.

- Alumni. 14:85-86. Mar. 1923.  
Elastic limit by temperature measurement. 6:272-276.  
May, 1914.  
Heat flow through building walls. 13:235-241. May,  
1922.  
A man of intellect. 18:98. Mar. 1927.  
Measurement of temperature. 3:70-83. Jan. 1911.  
South side retrospect. 18:5-7;30. Nov. 1926.  
An unofficial commencement address. 19:131;146.  
May, 1928.  
Unofficial observer. 18:60;78. Jan. 1927; 18:98.  
Mar. 1927; 18:140. May, 1927.  
"Us engineers don't need no English." 16:97-98;114.  
Mar. 1925. 20:129;154;156. May, 1929.

## Penn, John C.

- Biographical sketch. 18:142. May, 1927.  
Camp Armour --- Summer of 1914. 7:269-273. May, 1915.  
South Kedzie Avenue (Chicago) reinforced concrete arch  
bridge. 2:99-107. Jan. 1910.

Performance curves of the engineer. 19:54. Jan. 1928.

Periodic system. W. D. Harkins. 9:199-204. Jan. 1917.

Personal system and the constructing engineer. R. M.  
Henderson. 1:25-39. Jan. 1909.

#### Personality

Engineering personality. 18:50-51. Nov. 1922.

#### Petroleum industry

Relation of chemistry to the development of the petrol-  
eum industry. 18:8-9;32:34. Nov. 1926.

#### Phalen, H. R.

Grading of college students. 15:11-14. Nov. 1923.  
15:55-58;77. Jan. 1924.

#### Pharmaceutical manufacturing

Chemical control in pharmaceutical manufacturing. E.  
W. Jones. 8:58-62. Nov. 1915.

#### Phenol

Synthetic phenol manufacturing. C. C. Heritage.  
9:216-222. Mar. 1917.

Philip D. Armour Jr. Memorial window. 20:9. Nov. 1928.

Philippine Islands. E. L. Lundgren. 4:271-284.  
May, 1912.

#### Phillips, A. E.

Engineering field practice, Armour Institute of Tech-  
nology. 7:265-268. May, 1915.

#### Photography

Art of color reproduction through process plates.

D. A. Patterson. 18:45-47. Jan. 1927.

Color and the motion picture. M. B. Golber.

20:48-49;74;76;78. Jan. 1929.

#### Physical interpretation of thermodynamic principles.

J. M. Spitzglass. 7:192-199. Mar. 1915.

#### Physics

Radioactivity and atomic structure. J. T. Thompson.

18:91-93;97. Mar. 1927.

#### Pierce, D. T.

Asphaltic highway construction. 8:130-139. Jan. 1916.

#### Pierce, E. O.

Old civilizations and our own. 16:13-14;31-32.

Nov. 1924. 16:59-60. Jan. 1925.

#### Piers

Railroad bridges, abutments and piers. 6:107-113.

Jan. 1914.

Piers, see Bridges, Railroad

## Pigments

Manufacturing of pigments as seen by the insurance engineer.  
J. R. Wilson. 5:147-156. May 1913.

Pine oil. J. L. Burda. 18:48-49; 58; 72. Jan. 1927.

Pitot tubes for air. A. H. Anderson. 1:245-250. May 1909.

## Pittelkow, Walter

Summer camp. 18:11; 34. No. 1926.

"Pittsburgh plus" E. J. Buffington. 14:46; 55.  
Jan. 1923.

Place of spirit in education. 13:202-203. Mar. 1922.

Planning and production control. N. F. Kimball. 15:48;  
70. Jan. 1924.

Pneumatic ash handling systems. R. B. Harris. 3:106-113.  
Jan. 1911..

## Poems:

Afterthought. Walter Hendricks. 19:64. Jan. 1928.

Busy man. anom. 20:101. Mar. 1929.

Childhood's renewal. F. W. Gunsaulus. 19:136.

May 1928.

Desire to live. J. E. Allen. 20:18. Nov. 1928.

Elves. Walter Hendricks. 19:103. Mar. 1928.

Failure and success. anom. 20:22. Nov. 1928.

House by the side of the road. S.W. Ross. 13:47-48.

Nov. 1921.

How did you die. E. V. Cook. 12:195. Nov. 1921.

Ira Pettibone - optimist. W.B. Amsbary. 14:24.

Nov. 1922.

Just suppose. anom. 20:62. Jan. 1929.

Life and death. Ernest Crosby. 20:145. May 1929.

My philosophy. James Whitcomb Riley. 20:105.

Mar. 1929.

Overtones. W. A. Percy. 20:146. May 1929.

Philosopher. J. K. Bangs. 20:61. Jan. 1929.

Secret of the machines. Rudyard Kipling. 12:114-115.

Jan. 1921.

Shoppin' for color. Aramis. 19:103. Mar. 1928.  
 "Spunk" anom. 20:106. Mar. 1929.  
 The text. anom. 20:143. May 1929.  
 The thinker. Berton Braley. 12:52. Nov. 1922.  
 We never reach the goal. Edgar A. Guest. 20:36.  
 Nov. 1929.  
 What is good. John Boyle O'Reilly. 20:57.  
 Jan. 1929.  
 Words. Walter Hendricks. 20:58. Jan. 1929.

Poisson's ratio. 6:272-276. May 1914.

Portland cement, see Cement industry and trade.

Portsmouth water development, V. M. Crown. 11:3-11.  
 Nov. 1919.

Position of the engineer in society. C. T. McDonald.  
 10:33-37. Nov. 1917.

#### Potash

Alunite, a promising source of potash. C. H. McDonald.  
 15:134; 153-154. May 1924.

#### Power(mechanics)

Factory power. T. W. Simpson. 2:164-175. May 1910.

Power, see also Compressed Air, and Electric Power.

#### Power for the farm

Transmitted power for the farm. F. C. Van Etten.  
 11:195-207. Mar. 1920.

#### Power plants

Calumet station of the Commonwealth Edison Company.  
 W.F.Sims. 13:151-159. Mar. 1922.  
 Planning and erection of power plants. E.J. Heinen.  
 3:232-237. May 1911.

#### Powers, H. S.

An inexpensive fireproof house. 1:52-61. Jan. 1909.

Preparation of coal for the western market. Benedict  
 Shubart. 16:51-53. Jan. 1925.

## Preparedness

Relation of the engineer to national preparedness. Dr.  
Isham Randolph. 8:169-176. Jan. 1916.

Presentation of tablet in memory of Dr. Frank W. Gunsaulus.  
By. W. R. Townley. 13:43-46. Nov. 1921.

Preservation of wood from decay. C. H. Teesdale. 7:200-208.  
Mar. 1915.

## Pressure distribution curves

From data resulting from tests on the 12 in. hyperbolic  
elbow installed at the 25th Street Station of the  
Kansas City Gas Co., Kansas City, Mo. 14:92. Mar. 1923.  
Mean effective pressure. Daniel Roesch. 6:256-265.  
May 1914.

## Prime movers.

In Electrical installation at the Gary Works of the  
Indiana Steel Company. E.D. MacEwing. 2:144.  
Jan. 1910.

In Factory power. T.W. Simpson. 2:171-172. May 1910.

A private and a president. W.L. Visscher (editorial)  
10:346-350. May 1918.

## Producer gas

Aethracite producer gas for fuel purposes. N.S. Flinn.  
3:213-225. May 1911.

Properties of saturated and unsaturated air. G. F.  
Gebhardt. 1:196-207. May 1909.

## Public utilities

Municipal versus public utility operation of an electric lighting plant. C. R. Suler. 17:17-18;84. Nov. 1922.

Reorganization on the basis of public utility commission valuation. (editorial) 1:139-140. May, 1909.

Utilities and educational institutions. G. L. Jones. 20:8;82. Nov. 1922.

## Public utility commission

Difficult problems. F. C. Abell. 1:13-24. Jan. 1909.

Public utility property valuation. Leslie Weiss. 12:251-258. May, 1921.

## Pulsifer, E. B.

Metallurgical plants in the vicinity of Chicago. 7:14-22. Nov. 1914.

Roasting and sintering lead ores. 4:165-192. May, 1912.

Winning zinc blends. 8:140-152. Jan. 1916.

## Pumping stations

Construction of a Chicago water tunnel. J. L. Downs. 18:57-82. Jan. 1927.

Influence of minnows in the circulating water of a condenser. 19:82;106. Mar. 1928.

World's largest pumping station. W. E. Collier. 20:6-7;22. Nov. 1922.

## Pumps, centrifugal

Centrifugal fire pump. Mahan. E. L. 7:274-294. May, 1915.

Centrifugal pump efficiency. 18:88-90. L. G. L. Thomas. Mar. 1927.

## Pupin, Michael

Review of "From immigrant to inventor". 13:28. Nov. 1924.

Purchase of coal on specification and test. W. C. Collins. 2:197-199. May, 1910.

## Pyrometers and pyrometry

Measurement of temperature. J. C. Peebles. 3:70-73. Jan. 1911.

Utility of the pyrometer on carburized water gas machine. C. S. Heath. 3:161-187. May, 1911.

## Quackenbush, L. D.

Industrial electric service in the southern states. 4:285-293. May, 1912.

## Quartz glass

Siloxide, an unrivalled substitute for quartz glass.

Dr. I. R. Thomas. 5:79. Jan. 1913.

## Questionnaire

How does a student spend his spare time? 13:284-285.

or 1922

Radiators, automobile, see Automobile engines - radiators.

#### Radio activity

Collision of  $\alpha$ -particles with light atoms. Sir E. Rutherford. 11:34-44. Nov. 1919.

Radio activity and atomic structure. J. C. Thompson. 18:91-93;97. Mar. 1927.

#### Radio broadcasting

Transmitting equipment for radio telephone broadcasting.

E. L. Nelson. 18:95-94;109. Mar. 1928.

18:131-133;131. May, 1925.

#### Radio engineering.

Armour Tech radio station "9YL". Fred Marco. 14:114-115;126. May, 1923.

#### Radio stations

WGBR - The last word in radio stations. H. A. Dozois. 20:138-137;138. May, 1928.

#### Radio telephone

Talking from N. Y. to London. H. W. Nichols. 13:19-20;32. Nov. 1923.

#### Radio telegraph

submarine radio telegraphy. H. DeForest Stevers. 11:12-16. Nov. 1919.

Radiophone broadcasting. (editorial) 13:272. May, 1922.

Radium clock. 18:93. Mar. 1927.

#### Rahn, A. A.

Manufacturing principles. (editorial) 10:250-254. Mar. 1918.

#### Railroad bridge abutments and piers. D. F. Soltman.

6:107-115. Jan. 1914.

#### Railroad curves

String lining high speed railroad curves. J. B. Farrell. 20:92-93. Mar. 1929.

#### Railroad train control

Continuous two speed system of automatic trail control. H. E. Larson. 19:125;144. May, 1928.

#### Railroads

Construction and operation of the Deering Southwestern Railway. A. I. Converse. 8:305-316. May, 1916.

Making work a game. L. R. Sillcox. 12:106-111. Jan. 1921.

Railroad passenger car heating. E. L. Rietz. 9:232-247. Mar. 1917.

Some new buildings of the Chicago railways. E. F. Hills. 1:230-244. May, 1909.

## Railroads (cont'd)

Track capacity and rapid transit service. (Editorial)  
1:140-142. May, 1909.

## Railroads - Electrification

Electrifying the Illinois Central Railroad suburban service  
in Chicago. 18:14-16;34. Nov. 1926.

Transmission and contact systems used on the electrified  
divisions of the C. M. & St. P. Ry. Co. Marston Curtis.  
8:3-9. Nov. 1915.

## Railroad terminals

Chicago railway terminal problem. L. C. Fritch. 4:144-  
148. Jan. 1912.

St. Paul Union depot. G. H. Wilsey. 17:134-136;160;162.  
May, 1926.

Railway passenger car heating. E. W. Rietz. 9:232-247.  
Mar. 1917.

Railway signaling. J. E. Saunders. 10:308-313. May, 1918.

Railway track elevations. E. O. Greifenhagen. 2:7-58.  
Jan. 1910.

## Randolph, Dr. Isham

Relation of the engineer to national preparedness. 8:169-  
176. Jan. 1916.

Rapid transit systems - Carrying capacity. T. A. Banning, Jr.  
1:208-229. May, 1909.

## Raymond, Dean Howard M.

Appointed secretary of Technical schools of the Illinois  
section on industrial training for war emergency council  
of national defense. (editorial). 10:130-132. Jan. 1918.

The institute: its beginning, past, present, and future.  
17:86-88. Mar. 1926.

Portrait of .... 14:5. Nov. 1922.

## Rebori, A. N.

Evolution of the skyscraper. 4:52-64. Jan. 1912.

## Records

Value of records to an operating engineer. R. S. Huey.  
9:131-144. Jan. 1917.

## Rectification

Modern mercury arc power rectifiers. O. K. Martin. 19:  
11;28. Nov. 1927.

Tantalum electrolytic valve. C. E. Stryker. 16:54-56;73.  
Jan. 1925.

## Reed, E. H.

"The significance of the fine arts". A book for everyone.  
(book review) 14:113. May, 1923.

- Reflex stimulation or management of electrical shock. H. B. Thomas. 6:37-46. Nov. 1913.
- Refractory materials  
Alumite-- promising source of potash. C. H. MacDowell.  
- 15:134;153-154. May, 1924.
- Refrigeration and refrigerating machinery  
Mechanical refrigeration. E. E. Maher. 3:238-249.  
May, 1911.
- Reinforced concrete designing. Ernest McCullough. 1:268-280. May, 1909.
- Relation of chemistry to the development of the petroleum industry. J. W. Urban. 18:8-10;32;34. Nov. 1926.
- Relation of the engineer to national preparedness. Dr. Isham Randolph. 8:169-176. Jan. 1916.
- Religion  
One of the great religions of the world. W. J. Zenner. 18:56;74. Jan. 1927.
- Reorganization on the basis of public utility commission valuations. (editorial) 1:139-140. May. 1909.
- Reports, Technical, see Technical reports
- Responsibility of discrimination. H. F. McCormick. 7:149-151. Jan. 1915.
- Responsibility of education. M. E. Cooley. 15:9-10;31. Nov. 1923.
- Responsibility of the young engineer in advancing his profession. (editorial). 9:273-278. Mar. 1917.
- Resuscitation  
Reflex stimulation or management in electrical shock.  
H. B. Thomas. 6:37-46. Nov. 1913.
- Reynolds, Arthur  
Business in perspective. 15:47;71. Jan. 1924.
- Rice, R. H.  
Engineer in the community. 13:245-249. May, 1922.  
Low tension feeder systems for street railways. 4:113-123. Jan. 1912.
- Rietz, E. W.  
Railway passenger car heating. 9:232-247. Mar. 1917.
- Ritter-kellner process of manufacturing of sulphite cellulose.  
C. C. Heritage. 8:44-51. Nov. 1915. 8:153-160. Jan. 1916. 8:348-357. May, 1916.

## Rivers

Chicago river straightening. M. B. Golber. 20:85-87;  
110;112. Mar. 1929.

## Roads

Ashphaltic highway construction. D. T. Pierce. 8:130-139.  
Jan. 1916.

Future of American highways. H. J. Armstrong. 7:121-127.  
Jan. 1915.

Illinois roads. C. W. Collins. 8:228-231. May, 1916.

Road engineering. Raymond Zack. 11:208-210. Mar. 1920.

## Roesch, Daniel

Armour Institute of Technology internal combustion engineering laboratory. 10:102-106. Jan. 1918.

Audibility, spark-advance, anti-knock tests. 19:132-133;  
136. May, 1928.

Automobile brakes. 13:1-21. Nov. 1921. 15:91-94;112.

Mar. 1924. 15:135-139;151. May, 1924.

Comprehensive method of testing variable speed, variable  
load gasoline engines. 10:303-307. May, 1918.

Efficiency of the internal combustion engine. 9:313-318.  
May, 1917.

Factor tests of an internal combustion engine. 20:96-97;  
116. Mar. 1929.

Fuel and air mixing devices for internal combustion engines.  
12:96-105. Jan. 1921.

Gas engine operating data. 5:51-58. Jan. 1913.

The M.E.P. of gas engine. 8:216-227. Mar. 1916.

Mean effective pressure. 6:256-265. May, 1914.

Some power requirements of aircraft. 13:223-234. May, 1922.

Soothing the internal combustion engine. 17:50-51.  
Jan. 1926.

What price knock. 18:54-55;72. Jan. 1927.

Role of the aerodynamical laboratory in the development of  
aeronautics. S. V. James. 4:101-112. Jan. 1912.

## Rolling mills

Electric driving of rolling mills. W. T. Dean. 3:84-  
102. Jan. 1911.

Roosevelt road viaduct. Morris Grodsky. 12:173-188.

Mar. 1921.

## Roscolite ores

Recovery of vanadium from roscolite ores. A. H. Carpenter.  
13:184-195. Mar. 1922.

## Rosenthal, H. I.

A new system of direct current motor control. 12:145-157.  
Mar. 1921.

## Rubber

Technical man in the rubber industry. A. H. Smith. 15:  
15-16;32. Nov. 1923.

Rutherford, Sir E.

Collision of  $\alpha$ -particles with light atoms. 11:34-44.  
Nov. 1919.

Sabine, R. E.

Insulation of sound by double partitions. 17:131-133.  
May, 1926.

Safety factor. W. F. Dietzsch. 3:103-105. Jan. 1911.

Safety goggles. S. V. James. 9:57-65. Nov. 1916.

St. Paul Union Depot. G. H. Wilsey. 17:134-136;160;162.  
May, 1926.

Salesmanship. H. C. Coffeen. 12:29-30. Nov. 1920.

Sampson, C. C.

Heat value calculator. 1:92-95. Jan. 1909.

Sanford, L. A.

By product coke ovens. 11:81-94. Jan. 1920.

A satisfactory method for the determination of benzene and  
toluene in crude toluol. A. Pearson. 10:38-48.  
Nov. 1917.

Saturated air

Properties of saturated air. G. F. Gebhardt. 1:196-  
207. May, 1909.

Saunders, J. E.

Automatic block signaling. 13:71-85. Jan. 1922.

Railway signaling. 10:308-313. May, 1918.

Signaling for interurban electric railways. 7:249-263.  
May, 1915.

Savelsberg converter. 4:176. May, 1912.

Schaeffer, A. Jr.

Hunters in the dark. 19:34;36. Nov. 1927.

Schedules

Working. 1:29. Jan. 1909.

Delivery. 1:32. Jan. 1909.

Organization. 1:31. Jan. 1909.

Progress. 1:35. Jan. 1909.

Schenectady Power Co's hydraulic turbine units. Stanley  
Dean. 3:139-160. May, 1911.

Scherger, Dr. G. L.

American ideals. (editorial) 10:338-345. May, 1918.  
(Editorial). 6:287-288. Mar. 1914.

Mission of culture. 14:71-72. Mar. 1923.

Reconstruction during and after the war. (editorial)  
10:136-138. Jan. 1918.

- Schommer, J. J.  
 Building and operating a cider vinegar plant. 12:1-16.  
 Nov. 1920.  
 Trend of modern intercollegiate athletics. 12:45-49.  
 Nov. 1920.  
 Garbage reduction plant of Columbus, Ohio. 9:319-331.  
 May, 1917.  
 How to prepare uncalled manpower. (editorial) 10:254-257. Mar. 1918.  
 Vinegars. 9:30-34. Nov. 1916.
- Schwartz, H. A.  
 What and why is malleable iron. 11:95-110. Jan. 1920.
- Schweitzer, W. E.  
 Model aeroplanes. 16:16;30. Nov. 1924.
- Scientific management  
 Application of scientific management to the problems of the factory. 9:102-119. Jan. 1917. 9:249-267. Mar. 1917.
- Scott, Walter Diel  
 Mutual benefits. A letter. 17:91. Mar. 1926.
- Selection of electrical equipment for steel mills. T. M. Sturgess. 5:67-78. Jan. 1913.
- Secret of the machines. (poem) Rudyard Kipling. 12:114-115. Jan. 1921.
- See, Pierre V. C.  
 Twenty years of electric railroading. 17:9-11. Nov. 1925.
- Sewerage disposal  
 Garbage reduction plant of Columbus, Ohio. J. J. Schommer. 9:319-331. May, 1917.  
 Modern sewage treatment in the sanitary district of Chicago. F. W. Mohlman. 16:9-12;29-30. Nov. 1924.  
 Northside sewage treatment plant. H. E. Larson. 19:49-50;56. Jan. 1928.
- Sewage plants, see Sewerage disposal
- Seyferlich, W. M.  
 Electrical induction furnace. 11:211-221. Mar. 1920.  
 Electricity, the wonder worker. 11:318-326. May, 1920.
- Shaffer, C. L.  
 Chicago traffic signal system. 19:122-124;138. May, 1928.
- Shedd, M. C.  
 Impact machine and its equipment for testing draft gears. 1:251-259. May, 1909.
- Shock, electrical, see Electrical shock.

- Shock absorption  
Automobile-tire shock absorption machine. 12:31. Nov. 1920.
- Shoveling machinery  
The steam shovel. E. R. Weber. 5:214-222. May, 1913.
- Shubart, Benedict  
Mechanical loading in underground coal mines.  
17:15-16;34. Nov. 1925. 17:53-56;71. Jan. 1926.  
17:103-106. Mar. 1926. 17:137-139;164. May, 1926.  
Preparation of coal for the western market. 16:51-53.  
Jan. 1925.
- Shuler, C. R.  
Municipal versus public utility operation of an electric  
lighting plant. 17:17-18;34. Nov. 1925.
- Sieck, Herbert  
Oil hydrogenation. 14:13-15. Nov. 1922.
- Signals and signaling  
Automatic block signaling. J. E. Saunders. 13:71-85.  
Nov. 1922.  
Railway signaling. J. E. Saunders. 10:308-313. May, 1918.  
Signaling for interurban electric railways. 7:249-263.  
May, 1915. J. E. Saunders.
- The significance of the fine arts. (book review). E. H.  
Reed, Jr. Published under direction of Amer. Inst.  
of Archs. 1923. 14:113. May, 1923.
- Sillcox, L. K.  
Making work a game. 12:106-111. Jan. 1921.
- Siloxide  
Siloxide an unrivalled substitute for quartz glass. Dr.  
I. F. Thomas. 5:79-89. Jan. 1913.

valuation of an electric railway property.
- South Kedzie Avenue (Chicago, Ill.) reinforced concrete  
Arch bridge. J. C. Penn. 2:99-107. Jan. 1910.

South side retrospect. J. C. Feebles. 18:5-7;30. Nov. 1926.

Spanish -- study of

Necessity for studying Spanish in American schools.

J. S. L. Waddell (editorial) 8:83-88. Nov. 1915.

Specifications. W. G. Leininger. 2:176-196. May, 1910.

Specifications. (editorial) A. E. Phillips. 6:139-141.  
Jan. 1914.

Specifications. Bids. M. B. Wells. 17:45-46. Jan. 1926.

Speed control for small motors. H. W. Nichols. 6:23-26.  
Nov. 1913.

Spitzglass, J. M.

Construction and use of logarithmically ruled coordinates;  
general diagrammatic solution of gas problems. 2:123-  
139. Jan. 1910.

Flow of fluids and frictional resistance in pipes.

9:223-231. Mar. 1917. 9:302-312. May, 1912.

Inventor of computer for the flow of liquids in pipes.  
7:33-40. Nov. 1914.

Measuring the flow of liquids electrically. J. M. Spitz-  
glass and E. H. Freeman. 14:73-74;79-80;94. Mar. 1923.

Physical interpretation of thermodynamic principles.  
7:192-199. Mar. 1915.

Sprinklers. 4:226-245. May, 1912.

Sprinkling systems

Life of automatic sprinklers. C. K. Alling. 4:131-137.  
Jan. 1912.

Sladeker, G. I.

Electric lighting plants in small villages. 8:238-244.  
Mar. 1916.

Stadiums

Chicago Stadium -- Grant Park. 16:27-28. Nov. 1924.

Northwestern University Stadium. J. R. Griffith. 18:12-  
13. Nov. 1926.

Stage lighting. F. H. Juergensen. 20:52-53;66;68. Jan. 1929.

Standpipes

Interior standpipes and hose systems. N. F. Kimball.  
9:10-23. Nov. 1916.

Stantial, G. B.

High grade malleable iron. 18:50-52;58. Jan. 1927.

Steam shovel. E. R. Weber. 5:214-222. May, 1913.

Steam power plants

Calumet station of the Commonwealth Ed. Co. W. F. Sims.  
13:151-159. May, 1909.

## Steel

- Manufacturing of manganese steel castings. B. S. Carr.  
10:155-186. Mar. 1918.  
"Pittsburgh plus" Frank Emerick. 14:9-12;16-17. Nov. 1922.  
Heat treatment of high speed steel. W. G. Smith. 2:110-  
122. Jan. 1910.  
Heat treatment of high speed steel. W. H. Weinwurm.  
16:57-58. Jan. 1925.

## Steel works

- Selection of Electrical equipment for steel mills. F. M.  
Sturgess. 5:67-78. Jan. 1913.

## Steinmetz, Dr. C. F.

- Address to students of AIT. 11:142-146. Jan. 1920.  
Charles Steinmetz. J. H. Goodmanson, E. A. Klein, P. O.  
Peckham. 15:141-143;154. May, 1924.

## Stephenson, L. J.

- A new system of direct current motor control. H. I.  
Rosenthal. 12:145-157. Mar. 1921.

## Stevens, A. B.

- Boy surveyors in Wisconsin. 19:15;30. Nov. 1927.

## Stevens, H. D.

- Submarine radio-telegraphy. 11:12-16. Nov. 1919.

## Stier, H. E.

- Ballistic engineering. 20:94-95. Mar. 1929.

## Stiff, C. K.

- Building to reduce fire losses. 18:130-132;152. May, 1927.

## Stineman, Capt. N. M.

- Misuse of the word engineer. (editorial) 10:140-141.  
Jan. 1918.  
Preparing a city building code. 17:52;68;70. Jan. 1926.

## Storage

- Fire hazards in fuel storage. R. E. Kilbourne. 20:138-  
139;158. May, 1929.

## Storage batteries

- Storage batteries. W. L. Borroughs. 11:222-231. Mar. 1920.  
Storage batteries for small electrical central station power  
plants. H. B. Marshall. 5:104-108. Jan. 1913.  
Hydrometer in the operation of storage batteries. L. H.  
Flanders. 1:143-160. May, 1909.  
Upkeep and repair of storage batteries. 14:77-78;84.  
Mar. 1923.

## Storage batteries - charging

- The tantalum electrolytic valve. C. E. Stryker. 16:54-  
56;73. Jan. 1925.

## Store buildings

- Modern Berlin dept. store. H. Bischof. 8:52-57. Nov. 1917.

## Street railways

Low tension feeder systems for street railways. R. H. Rice. 4:113-123. Jan. 1912.

## Streets

Some creosoted wood block pavements in Chicago. . F. Harvey. 4:215-225. May, 1912.

Specifications of the Bureau of Streets. W. G. Leininger. 2:176-196. May, 1910.

Stresses in ships. S. N. James. 10:281-301. May, 1918.

String-lining high speed curves. (railroad) F. B. Farrell. 20:92-93. Mar. 1929.

## Stryker, C. E.

Application of protective relays to central station practice. 12:17-28. Nov. 1920.

Tantalum electrolytic valve. 16:54-56;73. Jan. 1925.

## Sturgess, F. M.

Selection of electrical equipment for steel mills. 5:67-78. Jan. 1913.

## Sturtevant, R. W.

Civil engineering corps of the navy. 17:129-130;160. May, 1926.

Submarine radio telegraphy. H. D. Stevens. 11:12-16. Nov. 1919.

## Substations

Application of automatic substations to interurban lines. 12:91-95. Jan. 1921.

Central station system substation. E. W. Grover. 10:81-106. Jan. 1918.

## Success

Decisions and their relation to success. G. W. Thompson. 19:10;14;30;36. Nov. 1927.

## Sugar industry and trade.

McMullen process for sugar manufacture. Harry McCormack. 3:250-258. May, 1911.

## Sugar manufacture

A new method of sugar manufacture. E. W. McMullen. 1:260-267. May, 1909.

## Sulphuric acid pickling solutions for iron and steel

containing arsenic. W. E. Wiard. 9:145-150. Jan. 1917.

Summer camp, see Field practice in surveying.

A summer hiatus. 17:5-6;32. Nov. 1925.

Sunny, B. B.

Greater contest. 13:37-39. Nov. 1921.

Symbolic representation of alternating current quantities.

H. C. Nichols. 4:45-51. Jan. 1912.

Synthetic phenol manufacture. C. C. Heritage. 9:216-222.

Mar. 1917.

Tact. (editorial) 16:19. Nov. 1924.

Tallmadge, T. E.

History of architecture in Illinois. 15:97-98;114. Mar. 1924.

Some achievements of ancient architects. 2:158-163. May, 1910.

Tanks, reinforced concrete

A 100,000 gallon reinforced concrete tank. T. J. Terreny.

5:159-166. May, 1913.

Tantalum electrolytic valve. C. R. Stryker. 16:54-56;73.

Jan. 1925.

Taxes

Valuation for taxes and for rate of return. (editorial)

1:137-139. May, 1909.

Taylor, E. S.

Plan of Chicago. 17:7-8;30. Nov. 1925.

Taylor, Fitzhugh

Automatic control of fire. 4:226-245. May, 1912.

Technical man in the rubber industry. A. H. Smith. 15:15-

16;32. Nov. 1923.

Technical reports

Water powers of south eastern Alaska. Leonard Lundgren.

8:30-43. Nov. 1915. 8:245-257. Mar. 1916. 8:358-366.

May, 1916.

Technical schools of the Illinois section on industrial

training for war emergency council of national defence.

See Council of National Defence.

Teesdale, C. H.

Preservation of wood from decay. 7:200-208. Mar. 1915.

Telegraph printer. Morkrun. 7:308-315. May, 1915.

Telephone cables

Telephone cable manufacture. R. E. Vennig. 19:129-130;

146;156. May, 1928.

Telephone call. J. W. Cohn. 9:35-44. Nov. 1916. 9:179-

187. Jan. 1917.

## Telephone practice

General description of the apparatus of the power plant employed in modern telephone practice. 10:314-332. May, 1918.

## Telephone and switch boards.

A telephone call. J. T. Cohn. 9:35-44. Nov. 1916. 9:179-187. Jan. 1917.

## Telephone

Telephone engineering. A. F. Allen. 15:88-90;114. Mar. 1924.

## Telescope

Fifty foot interferometer telescope. T. G. Peace. 16:125-126. May, 1925.

The 100 inch Hookes reflecting telescope of the Mount Wilson Observatory. 11:307-316. May, 1920.

## Temperature, Measurement

The elastic limit by temperature measurement. J. C. Peebles. 6:272-276. May, 1914.

Measurement of temperature. 3:70-83. Jan. 1911.

## Terpene, see Pine oil

## Terpeneol, see Pine oil.

## Testing laboratories

Mechanical engineering department. G. F. Gebhardt. 12:31-40. Nov. 1920.

## Theaters

Heating and ventilation of theater auditoriums. W. T. Braun. 9:45-56. Nov. 1916.

## Thermal conductivity

Design, construction and calibration of apparatus proposed for advanced improvement in the thermal conductivity tests. B. S. Carr. 9:120-136. Jan. 1917.

Thermal conductometer. 12:34-35. Nov. 1920.

## Thermal couples

Design, construction and calibration of apparatus proposed for advanced improvements in thermal conductivity tests. B. S. Carr. 9:120-136. Jan. 1917.

## Thermodynamics

Physical interpretation of thermodynamic principles. J. L. Spitzglass. 7:192-199. Mar. 1915.

## Thermometers and thermometry

Temperature and the manufacture of the thermometer. S. S. Amdursky. 17:140-144. May, 1926.

The thing that couldn't be done. (poem) 15:8. Nov. 1923.

The Thinker. Berton Braley. (poem) 12:52. Nov. 1920.

Thoelecke, L. C.

Business and the engineer. 18:134;154. May, 1927.

Thomas, H. B.

Reflex stimulation or management of electrical shock.  
6:37-46. Nov. 1913.

Thomas, Dr. I. F.

Siloxide, an unrivalled substitute for quartz glass.  
5:79-89. Jan. 1913.

Thomas, L. G. L.

Centrifugal pump efficiency. 18:88-90;116. Mar. 1927.

Thomas electric gas meter. R. H. Earle. 11:181-194.  
Mar. 1920.

Thompson, G. W.

Decisions and their relation to success. 19:10;14;30;  
36. Nov. 1927.

Thompson, J. S.

Radioactivity and atomic structure. 18:91-93;97.  
Mar. 1927.

Thury system

High tension direct current transmission. Francis  
Fernandez. 5:185-194. May, 1913.

Timbering

Some observations on lumber and timber. D. F. Holtman.  
17:12-14;32. Nov. 1925.

Tin

A new volumetric method for tin. W. W. Patrick and G. C.  
Wilsnack. 5:45-50. Jan. 1913.

Toluene

Satisfactory method for the determination of benzene  
and toluene in crude toluol. A. Pearson. 10:36-48.  
Nov. 1917.

Toluol, see toluene

Topographical survey of reservoir lands on Broad River,  
South Carolina. Stanley Dean. 2:86-95. Jan. 1910.

Tousley, V. E.

Electrical inspection. 6:247-255. May. 1914.

Track capacity and rapid transit service. (editorial)  
1:140-142. May, 1909.

Traffic regulations

"Through traffic" street system. H. E. Young. 17:113;  
120. Mar. 1926.

## Traffic signals

Chicago traffic signal system. C. D. Shaffer. 19:122-124;138. May, 1928.

Transmission and contact system used on the electrified divisions of the C.M.&St.P.Ry.Co. Marston Curtis. 8:3-9. Nov. 1915.

Transmission equipment for radio telephone broadcasting. E. L. Nelson. Pt.1. 16:93-94;109. Mar. 1925. Pt.2. 16:131-133;151. Mar. 1925.

Tribute of the underwriters. 13:43-46. Nov. 1921.

## Trucks

Modern passenger trucks. W. C. Brubaker. 6:203-215. Mar. 1914.

## Tuberculosis

Hunters in the dark. A. Schaeffer, Jr. 19:34;36. Nov. 1927.

## Turbo-generator sets

General Electric Co. 18:107-110. Mar. 1927.

## Tunnels and tunneling

The new southwest land and lake tunnel system of the Chicago waterworks. H. W. Clausen. 5:3-31. Jan. 1913.

Construction of a Chicago water tunnel. 18:57-58. Jan. 1927.

Latest tunnel connection near the Chicago Avenue pumping station, Chicago waterworks. 6:3-22. 1914.

## Turbines

Developments in hydraulic turbines. R. F. Earle. Pt.1. 20:12-13;34. Nov. 1928. Pt.2. 20:54-78;80. Jan. 1929.

Efficiency tests of Schanectady Power Co's. Turbine units #2 and 3. Stanley Dean. 3:139-160. May, 1911.

## Turkey red oil

Investigation of the essential constituents of turkey red oil and its derivatives. M. Goldenberg. 2:204-210. May, 1910.

Two Armour men in Europe. 5:90-97. Jan. 1913.

## Ufer, H. G.

Underwriter's laboratories methods of inspection and checking at factories. 10:22-32. Nov. 1917.

Underground conduit for the distribution of electrical energy. W. F. Sims. 1:182-195. May, 1909.

## Underwriter's laboratories

Method of inspection and checking at factories. H. G. Ufer. 10:22-32. Nov. 1917.

The service of Underwriter's laboratories. B. E. Blanchard. 13:27-36. Nov. 1921.

Underwriter's laboratories. O. R. Besch. 19:90-92. Mar. 1928.

Unger, P. T.

Upkeep and repair of storage batteries. 14:77-78:84.  
Mar. 1923.

Unofficial observer. J. C. Feebles. 18:60:78. Jan. 1927.  
18:98. Mar. 1927. 18:140. May. 1927.

Unsaturated air

Properties of unsaturated air. G. F. Gebhardt. 1:196-  
207. May, 1909.

Upkeep and repair of storage batteries. P. H. Unger.  
14:77-78:84. Mar. 1923.

Urban, J. W.

Relation of chemistry to the development of the petroleum  
industry. 18:8-10:82;34. Nov. 1926.

Us engineers don't need no English. J. C. Feebles. 16:97-  
98;114. May, 1929.

Utilities and educational institutions. G. R. Jones. 20:  
8;32. Nov. 1928.

Utility commissions, see Public utility commissions.

Utilization of blast furnace gases. E. K. Hammond. 4:32-  
44. Jan. 1912.

Vacuum gauge. 15:145-156. May, 1924.

Vacuum tubes

Vacuum tubes and their future. G. M. Wilcox. 14:91.  
Mar. 1923.

Valuation for taxes and for rate of return. (editorial)  
1:137-139. May, 1909.

Valuation of public utility property. Leslie Weiss. 12:  
251-258. May, 1921.

Value of a hobby. William Hoskins (editorial) 7:146-147.  
Jan. 1915.

Value of records to an operating engineer. R. S. Huey.  
9:131-144. Jan. 1917.

Vandadium

Recovery of vanadium from rescolite ores. A. E. Carpenter.  
13:184-195. Mar. 1922.

Van Etten, F. C.

Transmitted power for the farm. 11:195-207. Mar. 1920.

Variable load gasoline engines, see Gasoline engines.

Ventilation

Carventilation. D. I. Cook. 2:217-221. May, 1910.

## Ventilation (cont'd)

Factors in ventilation. W. C. Armspach. 10:238-244.  
Mar. 1918.

Forced ventilation and interpolers. (editorial) 1:9-11.  
Jan. 1909.

Ventilation. (editorial) 1:9-11. Jan. 1909.

Inviting field of ventilation. W. L. Watt. 9:151-167.  
Jan. 1917.

## Vernor, R. E.

Snapshot at fire prevention. 14:6. Nov. 1922.

Sparks for the engineer. 15:140;152. May, 1924.

## Viaducts

Roosevelt road viaduct. Morris Godsky. 12:173-188.  
Mar. 1921.

Vinegars. J. J. Schommer. 9:30-34. Nov. 1916.

## Vinegar plants

Building and operating vinegar plants. J. J. Schommer.  
12:1-16. Nov. 1920.

## Vining, R. E.

Telephone cable manufacture. 19:129-130;146;156. May,  
1928.

## Vocations

Making work a game. L. E. Sillcox. 12:106-111. Jan. 1921.

Volumetric efficiency of ammonia compressors. C. E. Beck.  
6:114-125. Jan. 1914.

Volumetric method for tin. W. W. Patrick and G. C. Wils-  
nack. 5:45-50. Jan. 1913.

Wabash Rouge River bridge at Detroit, Mich. S. M. Smith.  
13:250-255. May, 1922.

Wafer heater and holder. 1:80. Jan. 1909.

## Wagner, A. H.

Study of direct current motor defects. 13:256-267.  
May, 1922.

## Walls

Design of retaining walls. J. B. Johnson. 8:336-347.  
May, 1916.

War activities at Armour. (editorial) 9:352. May, 1917.

## Warehouses

Features of the New Fulton Market cold storage warehouse.  
L. L. Edlund. 12:217-225. May, 1921.

A water cooled X-ray tube. 15:148;157. May, 1924.

## Water meters

Cycloidal weir meters. Wm. Bready, Jr. 8:367-370.  
May, 1916.

## Water power

Water powers of Southeastern Alaska. Leonard Lundgren.  
8:30-43. Nov. 1915. 8:245-257. Mar. 1916.  
8:358-366. May, 1916.

Water softener. 9:174-178. Jan. 1917.

Water softening. Wm. Bready, Jr. 9:24-29. Nov. 1916.  
9:168-178. Jan. 1917.

## Water supply

Artesian water in the Orient. T. S. Ford. 3:56-61.  
Jan. 1911.  
Recent developments in boiler feed water treatment.  
16:47-50;73. Jan. 1925.

## Water treatment

Water softening. Wm. Bready, Jr. 9:24-29. Nov. 1916.  
9:168-178. Jan. 1917.  
See, also Water supply.

## Water wheels

Forms of nozzles for impulse water wheels. A. H.  
Anderson. 2:200-205. May, 1910.

Waterproofing of concrete. Arnold Pacyna. 6:186-202.  
Mar. 1914.

Waterproofing of track elevations. C.B.&Q.R.R. G. G.  
Faggander. 4:124-130. Jan. 1912.

## Watt, W. E.

Inviting field of ventilation. 9:151-167. Jan. 1917.

## Watt, W. T.

Diesel engines. 19:83-85. Mar. 1928.

WENR -- the last word in radio stations. H. H. Dozois.  
20:136-137;156;158. May, 1929.

## Weber, E. R.

The steam shovel. 5:214-222. May, 1913.

## Weinwurm, J. W.

Heat treatment of high speed steel. 16:57-58. Jan.  
1925.

Weirton stack. World's largest blast furnace. 18:147;  
150. May, 1927.

## Weiss, Leslie

Valuation of public utility property. 12:251-258.  
May, 1921.

- Wells, W. B.  
 Bids.. 17:45-46. Jan. 1926.  
 Stresses in aeroplanes during quick turns. 3:114-117.  
 Jan. 1911.
- Western Union Telegraph Co.  
 New Chicago telegraph building. H. W. Drew and R. E.  
 Newlander. 12:166-172. Mar. 1921.
- Westinghouse Nernst Lamp. A. L. Eustice. 1:73-91.  
 Jan. 1909.
- Wetzel, G. F.  
 Cost accounting. 13:163-174. Mar. 1922.  
 Costs and the engineer. 12:158-165. Mar. 1921.
- What and why is malleable iron. H. A. Schwartz. 11:95-  
 110. Jan. 1920.
- What does a college man know? G. V. Bradbury. 13:119-  
 121. Jan. 1922.
- What price knock. Daniel Roesch. 18:54-55;72. Jan. 1927.
- Where kings have lived. J. H. Bischof. 5:97-103.  
 Jan. 1913.
- Whipple, T. H. B.  
 16,000,000,000 business letters last year. 19:81-82.  
 Mar. 1928.
- White, H. S.  
 Investigation of the effect of air conditions upon the  
 power of aviation engines. 12:135-144. Mar. 1921.
- White, Linn  
 Chicago lake front development. 18:86087;116. Mar. 1927.
- Whitman, Walt  
 O Captain, My Captain. 12:268. May, 1921.
- Whitney, C. A.  
 Fire alarm systems. Pt. 1. 16:89-91;107. Mar. 1925.  
 Pt. 2. 16:134-136. May, 1925.
- Wiard, W. H.  
 Efficiency of sulphuric acid pickling solution for iron  
 and steel containing arsenic. 9:145-150. Jan. 1917.
- Willcox, G. M.  
 Vacuum tubes and their future. 14:91. Mar. 1923.
- Will you need a job. (editorial) 14:24. Nov. 1922.
- William Hale Thompson Pumping Station.  
 World's largest pumping station. M. B. Golber. 20:6-7;  
 26. Nov. 1928.

- Wilsey, G. H.  
Saint Paul Union Depot. 17:134-136;160;162. May, 1926.
- Wilson, J. R.  
Manufacture of pigments as seen by the insurance engineer.  
5:147-156. May, 1913.
- Wilson, V. R.  
Morgan gas producer installation at Gary. 1:62-72.  
Jan. 1909.  
Organization and the individual. 9:3-9. Nov. 1916.
- Wilson Observatory  
The 100 inch Hookes reflecting telescope of the Mount  
Wilson Observatory. 11:307-316. May, 1920.
- Wing, H. R.  
Engineer and the world's future. 13:196-198. Mar. 1922.
- Wire rod rolling. J. S. Banta. 4:76-84. Jan. 1912.
- Wire rope  
Tests of wire rope fittings. F. C. Huntley. 19:51-52.  
Jan. 1928.
- Wireless telegraphy -- recent developments. Louis Cohen.  
4:65-75. Jan. 1912.
- Wohlauer "Fluxolite" diagram. 4:8. Jan. 1912.
- Woldenberg, M.  
Investigation of the essential constituent of Turkey red  
oil, and its derivatives. 2:204-210. May, 1910.
- Wolfley, C. E.  
Experiences of an architect. 16:15;32. Nov. 1924.
- Wood block paving. W. F. Harvey. 4:215-225. May, 1912.
- Wood blocks for factory flooring and miscellaneous uses.  
C. H. Teesdale. 8:258-265. Mar. 1916.
- Wood preservation  
Preservation of wood from decay. C. H. Teesdale. 7:  
200-208. Mar. 1915.
- Wood yard and wood room of the cellulose mill. C. C.  
Heritage. 10:1-16. Nov. 1917.
- Wooden struts for aeroplanes. M. A. Smith. 2:242-243.  
May, 1910.
- Words - words-words. Walter Hendrick. 19:45. Jan. 1928.
- Work of valuation of an electric railway property. H. R.  
Badger. 2:71-77. Jan. 1910.

## Working schedule in

R. M. Henderson -- Personal system and the consulting engineer. 1:29. Jan. 1909.

## World War 1917-18.

Honor roll V. 10. Nov. 1918.

Reconstruction during and after the war. (editorial)  
10:136-138. Jan. 1918.

Wrangell region, see Alaska.

## X-ray tubes

A water cooled X-ray tube. 15:148;157. May, 1924.

## Young, H. E.

Proposed straightening of the Chicago River. 17:152-153. May, 1926.

"Through traffic street system". 17:113;120. Mar. 1926.

## Youngberg, H. C.

Diagram of the flow of water in open channels. 2:108-109. Jan. 1910.

Youth and the new world. H. S. Houston. 15:52;72.  
Jan. 1924.

## Zack, Raymond

Road engineering. 11:208-210. Mar. 1920.

## Zeder, J. C.

Automobile testing. 20:50-51;70;72;74. Jan. 1929.

## Zenner, W. J.

After graduation. What? 19:53-54;56. Jan. 1928.

One of the great religions of the world. 18:56;74.  
Jan. 1927.

## Zinc blende

Flotation. Winning zinc blende. H. B. Pulsifer.  
8:140-152.

1993.269
